

**HOBOWare Pro**

Powerful launch, readout, and analysis software for Micro Weather Stations

**HOBOLink** is web-enabled software designed for HOBOWare U30 GSM, Ethernet, and Wi-Fi models allowing easy access to current & historical data, alarms and relay activations

**HOBONode Wireless**

Monitors temperature & soil moisture conditions wirelessly transmitting data to your PC

- Fast easy deployment
- Additional Sensors easily added
- 6-mile sensor transmission range
- Software provides alarm notification to mobile/PC

# Energy & Weather Stations

**Designed for stand-alone environmental monitoring, HOBOWare Energy & Weather Stations offer reliable data logging performance and research grade measurements**

**HOBONode** monitors temperature and soil moisture, wirelessly

**Micro Weather Stations** log data from up to 4 sensors accurately and at low cost

**HOBOWare U30 Energy & Weather Stations** log data from up to 15 sensors using Wi-Fi, Ethernet, GSM, or USB communications

**Measure & Log:**

Temperature, Relative Humidity, Rainfall, Soil Moisture, Wind Speed & Direction, Leaf Wetness, Barometric Pressure, PAR, Solar Radiation, Pulse Input, Voltage Input, 4-20 mA Input

**Windspeed /Direction**

**Rainfall**

**Wind Speed**

**Soil Moisture**

**HOBOWare H22-001 Standalone Energy Logger for industrial applications**

TRMS Voltage, Light, CO2, Temperature

**HOBOWare Micro Station**

- Low Cost & Compact
- 4 Channel Input
- 500,000 Memory
- Weatherproof enclosure

**Temperature /Relative Humidity**

**HOBOWare U30/NRC Remote USB Monitoring System**

- Fast data offload via direct USB
- Up to 15 Smart sensor inputs
- 500,000 Memory
- Optional analogue inputs with sensor excitation
- Weatherproof enclosure

**HOBOWare U30/Wi-Fi Remote Wi-Fi Monitoring System**

- Built-in Wi-Fi
- Up to 15 Smart sensor inputs
- Unlimited HOBOLink Memory
- Alarm notification via mobile, or to PC
- USB Connectivity
- Weatherproof enclosure

**HOBOWare U30/ETH Remote Ethernet Monitoring System**

- Internet access to real-time data via Ethernet
- Up to 15 Smart sensor inputs
- Unlimited HOBOLink Memory
- USB Connectivity
- Plug and go sensors
- Weatherproof enclosure

**HOBOWare U30/GSM Remote GSM Monitoring System**

- Internet access to real-time data
- Built-in GSM
- Up to 15 Smart sensor inputs
- Unlimited HOBOLink Memory
- USB Connectivity
- Weatherproof enclosure
