

# PFA115

## PFA-115

De-reeler with motorised axle for prefeeding cords and other materials without any traction

- Basic speed adjustable by using the potentiometer
- Maximum speed freely programmable
- Acceleration and brake ramps freely programmable
- Accident prevention by torque limitation, electrically programmable, mechanically adjustable
- Start-Stop operation via external machine signal
- Free signal from and to other machines
- Short-circuit-proof motor regulation
- Analog-entry for light sensor controlling

### Options

- RS interface
- Foot

### Technical specifications

Power supply: 220/230 V

Watt consumption: 200 W

Revs: 0 - 200 rpm

Drum: Weight up to 15 kg

max. Ø 350 mm

max. width 300 mm

Diameter of shaft: 18 mm

Length of shaft:

Model A = 350 mm

Model B = 450 mm

Model C = 550 mm

Total machine weight: approx. 20 kg

Dimensions (machine casing): Height: 290 mm

Width: 270 mm

Depth: 360 mm
