

## **Jtech Street Scene offers Fun Aquatic Notice Boards for Kids**

Jtech Services have now introduced through their new Jtech Street Scene website a range of **Aquatic Fun Notice Boards** designed specifically to appeal to young children.

There are various sea life shapes that can be supplied in a range of bright colours: Red, Yellow, Orange, Pink, Turquoise or Green.

The steel backed, wall-mounted notice boards are suitable for either internal or external use with the glazing being made of a vandal resistant material. Having a steel backing plate the notices are kept in place by magnetic pins, making replacing the notices easy to achieve.

To keep the notices secure and give authorised access only, each Fun Notice Board has a safety lock supplied with two sets of keys.

For more information visit [www.jtechstreetscene.co.uk](http://www.jtechstreetscene.co.uk) and see how you could use them on your project.

Or like our Jtech Street Scene page on Facebook and see our latest projects as they happen.
