

OPERATING THEATRES

RANGE OVERVIEW

OPERATING THEATRES

Our range includes patient warming, patient cooling, fluid and blanket warming cabinets and blood fridges.

As well as manufacturing our own range of warming cabinets, we have also partnered with leading manufacturers such as Istanbul Medical and HICO to bring together a comprehensive range of innovative and high quality products for a modern operating theatre.

PATIENT WARMING SYSTEMS

The Medwarm system delivers a fast, safe, effective patient warming treatment for use in operating theatres, recovery and on wards.

PATIENT COOLING SYSTEMS

The perfect solution to the issue of perioperative patient cooling. HICO systems utilise surface contact with water pads to accurately control a patient's temperature. Ideal for operating theatres, recovery and wards.

FLUID WARMING CABINETS

The ideal solution for warming medical fluids

QED FW-ECO models are perfect for warming bottles and bags of saline and other fluids in an operating theatre or maternity setting

BLANKET WARMING CABINETS

QED BW-ECO models are perfect for warming cotton blankets in operating theatre recovery or a maternity setting.

CONTRAST MEDIA WARMING CABINETS

QED MW-ECO models are designed specifically for warming bottles of contrast media in CT scanner suites.

The ideal solution for warming bottles of contrast media.

COMBI WARMING CABINETS

A combination cabinet offering both a fluid warming and Blanket warming cabinet.

Perfect for saving space.
