## Medpage MP5 Seizure movement detection monitor with pager alarm

The MP5 was first introduced to market in 1995 and has remained our top selling Tonic/Clonic monitor ever since. A patented movement sensor is positioned under the person's mattress to detect nocturnal Tonic/Clonic seizure movement. An alert is transmitted to carer pagers (2 supplied) upon detected seizure movement.

- Wireless alerts signalled to MPPL pager with tone or vibration alert
- Adjustable sensitivity allows for patient body weight and bed mattress type
- Adjustable movement delay alarm virtually eliminates false alarms
- Digitally stored settings prevents tampering
- Mains powered with 36-hour battery backup
- Built in microphone detects vocalisations preceding or during a seizure
- Supplied with 2 carer pagers (1 free)
- Can be integrated into existing Nurse Call and Telecare systems

**ORDER CODE MP5 PRICE £205.00 (£246.00)** VAT Exemption available

## MP5-UT Children's epilepsy seizure movement detection alarm - Ultra-Sensitive

The MP5-UT uses patented sensor technology specifically engineered to detect Tonic/Clonic seizure movement while a child is in bed.

- Detected seizures are notified via the MPPL pagers with tone or vibration alert
- Suitable for babies from age 1 month to adults
- Supplied with 2 carer pagers (1 free) so that both parents can be alerted to detected seizures
- Digital sensitivity control
- Sound sensor detects vocalisations preceding or during a seizure
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements such as turning over
- Tamper proof settings & fault reporting to pagers

**ORDER CODE MP5-UT PRICE £170.00 (£204.00)** VAT Exemption available

## MP5-UTB Epilepsy bed movement seizure detection alarm

The MP5-UTB is a reliable nocturnal seizure movement detection alarm for babies through to adults at an affordable price. A portable battery-operated alarm with flashing coloured lights and adjustable audible alarm raises an alert to the carer of detected seizure movement.

- Adjustable sensitivity to suit the needs of the user
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements such as turning over
- Digitally stored tamper proof settings
- Inbuilt sound sensor detects vocalisations preceding or during a seizure
- Optional plug in under pillow vibrating pad to assist deaf carers (VIB-PAD)

**ORDER CODE MP5-UTB PRICE £170.00 (£204.00)** VAT exemption available  
See page 12 for optional power supply and vibrating pillow shaker for alarm unit

## MP2-V2K Medpage seizure movement detection alarm for care homes

The MP2-V2K uses patented sensor technology to detect typical seizure movement from a sleeping person in bed. Carers are alerted to ongoing seizures via a digital message pager (EM300) with tone/vibration alert. Each monitor has a long range transmitter, which is programmed with your chosen message (default for a single alarm system is 'SEIZURE ALERT').

- Long range (up to 400M) wireless alarm to carer message pager
- Suitable for use in larger buildings
- Adjustable sensor sensitivity
- False positive alarm delay control
- Suitable for children from age 1 to adults
- Detection of Tonic/Clonic seizure movement
- Vocalisation microphone with alarm to pager
- Can connect to Nurse Call and/or Telecare equipment

Seizure movement monitor including 1 x EM300 pager

**ORDER CODE MP2V2K PRICE £243.00 (£291.60)** See website for more details

## MP5-ULTRA Advanced seizure movement detection alarm with detection mode selection and carer alarm pagers

The most advanced epilepsy monitor in the MP5 range. Advanced software algorithms continually analyse sleeping movements to positively identify seizure activity. Suitable for complex epilepsy and specialist beds including airflow mattresses.

- Detected seizures are notified via MPPL pager (2 supplied) with tone or vibration alert
- Specialist customisation available
- Programmed with selectable seizure detection modes
- Digital movement delayed alarm control
- Inbuilt sound sensor to detect vocalisations preceding or during a seizure
- Large area patented monitoring sensor technology offers improved movement detection
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements such as turning over
- Tamper proof settings & fail safe alarm to pagers
- Tonic/Clonic and seizure movement with twitching
- Myoclonic cluster seizures
- Airflow mattress mode
- All Medpage seizure movement monitors have 36-hour battery backup
- Suitable for all ages: babies - adults
- Nurse call and Telecare systems output connection

**ORDER CODE MP5-ULTRA PRICE £439.00 (£526.80)** VAT exemption available

**All Medpage seizure movement monitors are supplied with a 36 month warranty**

Medpage Limited T/A Easylink UK, established 1984, have provided solutions to aid epilepsy care for over 25 years, specialising in the design and manufacture of monitors that detect seizure movements from a sleeping person in bed. To ensure the highest product quality and safety, our company is accredited by BSI to ISO 9001:2015.

At Medpage Limited, we take great care in the design, manufacture and after sales support for our seizure movement alarms. When you purchase an epilepsy seizure movement alarm from Medpage, our highly trained team are readily available for help, advice, and technical support, if needed, to ensure your monitor operates at maximum efficiency. Our technical support is provided at no extra cost.

## KFM30C Recording Wi-Fi Camera for home and business

View live video monitoring direct to your Smartphone with this simple to install and use home or business WiFi connected camera.

- Audio & video recorded to SD card (sold separately)
- 360° camera rotation via Smartphone APP
- Hi-Def night vision IR LED sensors
- Link with trigger sensors - PIR, Door, etc.
- Powered by 5V AC/DC adaptor (included)

Complete camera system **ORDER CODE KFM30C PRICE £39.99 (£47.99)**

## MEDBM-05 Wireless digital baby monitoring camera system

Useful camera system ideal for baby monitoring and patient care.

- Portable rechargeable video monitor
- Battery standby 4-6 hours (typical)
- DC adaptor powered camera
- Wireless range up to 60M (indoors)
- Multiple camera (up to 4) option
- Camera Pan/Tilt from monitor
- High performance night vision

Complete camera system **ORDER CODE MEDBM-05 PRICE £83.32 (£98.98)**

## MEDBM-03 Digital video watch wireless baby monitor

Hi performance digital wireless video monitor camera with watch style live video viewer.

- VOX vibration alert for camera detected sounds (ideal for deaf carers)
- Wireless range up to 60M indoors (typical)
- Camera night vision viewing
- 2-way voice intercom

Complete camera system **ORDER CODE MEDBM-03 PRICE £94.00 (£112.80)**

## MEMRABEL 2 Digital memory prompting calendar clock for dementia care

This unique dementia clock allows a family member or health visitor to set daily time reminders using voice, picture or video to plan a person's daily routine.

- Create personalised reminders on your phone or PC, or choose from over 100 pre-installed reminders
- File transfer via flash drive or SD card
- Select reminder playback for one-off, daily, weekly
- Choice of time display including traditional analogue
- Auto seasonal time adjustment
- Powered by mains AC/DC adaptor

**ORDER CODE MEMRABEL2 PRICE £99.99 (£119.00)**

## MEMRABEL MR3 Dementia care from your Smartphone

Create and send messages or memory prompts from your Smartphone to MR3 for automatic timed playback.

- Create an unlimited number of reminders
- Pre-installed collection of over 100 ready-made reminders
- Ideal for distant carers
- User friendly Smartphone APP iOS and Android
- Requires home broadband
- Easy video/slide show player
- Easy music player
- Visual screen alert for deaf/hard of hearing people
- Touch-screen operation with pass code lock

**ORDER CODE: MR3 PRICE £124.99 (£149.99)**

## MemRabel Remote controlled wireless object locator COL-02

People in the early stages of dementia frequently misplace items around the home. Now, it's very easy to find them. Place a remote beeper on the object (5 included) then simply press the corresponding button on the remote to activate the colour coded beeper.

- Includes 6 beepers powered by CR2032 battery
- Attach to keys, handbags, medicines etc.
- Suitable for the visually impaired - 50M location range

**ORDER CODE COL-02 PRICE £18.29 (£21.95)**

# GPS LOCATION TRACKERS - QUICKLY FIND A MISSING PERSON

## MMTBV45 Medpage GPS personal location tracker with SOS button, fall sensor and phone calling

- Personal safety for vulnerable and elderly people
- GPS location services via Google maps to Guardian Smartphone
- SMART SOS button for guardian emergency alert notification
- Discrete, compact, lightweight, rugged toughened casing
- Waterproof to IP67

**ORDER CODE: MMTBV45 PRICE £70.83 (£85.00)**

## MMTBO2 Medpage Micro-GPS tracker with fall sensor & secure Smartphone APP

Rest assured knowing that should a person go missing, they can be located immediately with the Medpage micro tracker.

- GPS location accurate to 5M
- Geo-fence safe zone with breach alarm via APP
- Inbuilt fall sensor sends an alert to emergency contacts should the user experience a fall
- Location by GPS/Wi-Fi hub/GPRS
- Two-way mobile voice calling
- No monitoring or subscription charges
- SOS button calls carer and sends location details
- Includes lanyard and wrist strap

Requires mobile SIM **ORDER CODE MMTBO2 PRICE £58.29 (£69.95)**

Mobile Roaming SIM offer. Telephone sales for details

## MED-V36 Medpage GPS waterproof tracker watch with heart rate & BP monitor

Lightweight GPS personal tracker watch offers discrete peace of mind to those caring for a loved one who is prone to wandering.

- GPS tracking accurate to within 5M
- Send personalised reminder alarms to the watch from carer Smartphone - watch vibrates with tone alarm to alert user
- Approximate Heart Rate and Blood Pressure check from carer Smartphone via control APP
- Go-fence & Wi-Fi zone protection alarm with breach alarm
- SOS function sends location text & 2-way voice calling
- No subscription or monitoring charges
- Waterproof to 1M (for 30 minutes maximum)
- Requires mobile SIM (Optional roaming SIM deal)

**ORDER CODE MED-V36 PRICE £78.20 (£93.90)**

## MEDWFD-1 Wi-Fi connected door alarm with monitoring APP

The MEDWFD is a useful door/window alarm sensor, which connects through your home or business Broadband (2.4GHz only) and is configured via a Smartphone APP (Android or iOS). The APP provides a comprehensive selection of features, including choice of alarm notifications and sensor labelling.

- APP records date & time of door events
- Can also be used on food cupboards and fridges
- Beneficial in the care of people with dementia or cognitive impairment for wander detection
- Can be used with multiple sensors for home and business protection

Wi-Fi door/window sensor **ORDER CODE MEDWFD-1 PRICE £24.95 (£29.95)**

## MEDWFM Wi-Fi connected movement sensor with Smartphone alarm APP

Setting up the MEDWFM takes only a minute or two. Download the user APP to your Smartphone and connect to a home or business Broadband router (2.4GHz only). The user-friendly intuitive APP notifies you if a person walks into the detection beam of the PIR, through the internet to your Smartphone, recording the date and time of the alert. You can check if someone is moving around in the home (parents, elderly relative or potential thief).

- Provides a simple security solution with event date and time record
- Receive an alert if a person enters your home or business premises
- Free to use APP for Android and iOS (no subscription or rental charges)

WiFi movement sensor **ORDER CODE MEDWFM PRICE £29.12 (£34.95)**

## WFSOSB11 Wi-Fi waterproof SOS panic call button for Smartlife APP

- Lightweight waterproof Wi-Fi pendant call alarm for off-site emergency contact
- Wear it with a lanyard or stick it on a wall or hard surface
- APP for Smartphone provides alarm notifications with time/date record
- Quick and easy setup of rechargeable pendant using Tuya Smartlife APP

**ORDER CODE WFSOSB11 PRICE: £20.83 (£25.00)**

# Long-Range POCSAG data message encoded transmitter products

The products detailed on this page are featured in various kits in the following pages. An unlimited number of transmitters can be used with single or multiple pagers. The messages are factory programmed so you need to provide us with your messages when placing an order for additional or multiple products. Single items are shipped with the appropriate default message. Some items are not featured in this brochure.

**POC-840DC** Quick and easy to install door & window alarm with on/off switch. Programmable with message up to 40 characters.

**ORDER CODE POC-840DC PRICE £50.00 (£60.00)**

400M range  
Power 1 x CR2032  
Low battery warning

**POC-940** Waterproof (IP67) call pendant with wrist strap and lanyard included. Programmable with message up to 40 characters.

**ORDER CODE POC-940 PRICE £46.00 (£55.20)**

400M range  
Power 1 x CR2450  
Transmit confirmation LED - Low batt alert

**NMDTX** Multi-function message programmable POCSAG transmitter with configurable N/O N/C input.

**ORDER CODE NMDTX PRICE £51.00 (£61.20)**

400M range  
Power 2 x AAA  
Bed/chair & floor pressure mat modes.

**EM300** Digital data message pager with tone/vibrate alert. Stores last 20 pages with time & date.

**ORDER CODE EM300 PRICE £61.00 (73.20)**

Sturdy belt clip  
Power 1 x AAA  
Time/date calendar  
Time alarms

**EM400** Digital data message pager with powerful vibration and tone alert. Top view vertical display.

**ORDER CODE EM400 PRICE £56.00 (£67.20)**

400M range  
Power 1 x AA  
LCD backlit display  
Message review

**BC346** Long range call button with inertia and gravity fall sensor (software adjustable) IP67 waterproof.

**ORDER CODE BC346 PRICE £78.00 (£93.60)**

400M range  
Power 1 x CR2450  
Message programming  
Transmit & fall LED

**EM1600U** Signal repeater for all Medpage long-range transmitter products (this page). Extend range up to 500M. Suitable for Care Home and security applications

**ORDER CODE EM1600U PRICE £135.00 (£162.00)**

Range up to 500M  
Power 12V DC @ 1A

Jelly switch with transmitter **ORDER CODE LIB-01TXU PRICE £51.49 (£61.79)**

## BC346-EM300 Waterproof fall detection bracelet with long range call button

This kit includes a high specification inertia/gravity fall sensor (software adjustable) with convenient wrist strap and call button and offers at home and away from home (with optional MP-900 IoT internet hub) fall notification and includes a high performance tone/vibrate radio pager. With a SOS and fall detection transmitter range of up to 400M the kit is suitable for domestic and Care Home use. The optional Wi-Fi connected control hub provides off-site alarm alerts and setup of any sensors added to the kit including: door alarms, bed & chair occupancy sensors. Kit includes: 1 x fall sensor bracelet, 1 x EM300 pager.

**ORDER CODE BC346-EM300 PRICE £139.00 (£166.80)**

**ORDER CODE MP-900 PRICE £95.00 (£114.00) (optional)**

BC346-EM300

## TXP11-PAG11 Gravity activated fall detection alarm with pager

Active emergency button/fall detection sends signal to central monitor or included alarm pager  
Includes lanyard with anti-ligature point  
Optional watch strap (not included)  
Accelerometer fall detection sensor  
Reset signal can be triggered using magnetic switch  
Battery life in excess of 3 years with normal usage  
Changeable battery - uses CR2477  
Waterproof to IP67

Fall alarm with CTMV kit **ORDER CODE TXP11-PAG11 PRICE £63.28 (£75.93)**

Fall alarm only **ORDER CODE TXP-11 PRICE £25.79 (£30.94)**

## NMDRX-FA6P Wrist worn gravity activated fall detection alarm

This kit uses the NMDRX call station with audible/flashing light alarm. You could add the CTM3-CT3 bed alarm to provide daytime fall and night time out of bed alert.

- 5-Channel alarm receiver with 5 selectable alarm colours (example: fall alarm RED bed alarm BLUE)
- Suitable for hard of hearing/deaf carers
- 30 second or looped audible/flashing light alarm
- NMDRX power: 3 x AA batteries or optional AC adaptor

Fall alarm with NMDRX kit **ORDER CODE NMDRX-FA6P PRICE £64.94 (£77.92)**

Fall alarm only **ORDER CODE MPPL-FA6 PRICE £27.45 (£32.95)**

# WIRELESS DOORBELL BUTTON WITH ALARM CHOICES

## NMDRXDB Wireless doorbell button with flashing light alarm receiver

Simple to install and use flashing light doorbell system, ideal for the deaf and hard of hearing.

- Battery operated portable tabletop alarm
- 5-Channel with selectable flashing alarm colour
- Receiver can pair with up to 5 transmitters
- Output for optional under pillow vibrating pad
- 30 second or looped alarm
- Secure doorbell fixings supplied
- All batteries included

Flashing light doorbell kit **ORDER CODE NMDRXDB PRICE £37.49 (£44.99)**  
Doorbell button only **ORDER CODE NMD-DB1 PRICE £8.28 (£9.95)**

## MPPL-DBK Wireless doorbell button with tone/vibration alarm pager

Simple to install and use radio paging doorbell system, ideal for the deaf and hard of hearing.

- Doorbell transmitter button activates pager alarm
- Transmission range up to 80M
- Pager can pair with up to 9 transmitters
- Sturdy pager belt clip
- You can add an NMDRX flashing light (to identify active doorbell signal) alarm or additional pagers

Doorbell with pager **ORDER CODE MPPL-DBK PRICE £31.00 (£37.20)**  
Doorbell button only **ORDER CODE NMD-DB1 PRICE £8.28 (£9.95)**

## CTMV-NDB Wireless doorbell button with voice alarm receiver

A doorbell solution for people with cognitive impairment. Some people fail to respond to a conventional door chime. Simply record a personalised message for playback when the doorbell button is pressed. For example, "Someone is at the front door".

- Can be used with up to 3 transmitters, each with different messages (requires additional transmitters)
- Single or looped message playback

Doorbell with CTMV receiver **ORDER CODE CTMV-NDB PRICE £44.11 (£52.93)**  
Doorbell button only **ORDER CODE NMD-DB1 PRICE £8.28 (£9.95)**

# CALL PENDANT FOR SINGLE AND MULTIPLE USERS

## PAG-11-ULC11 Waterproof call pendant button with caller display alarm pager

The PAG-11 pager is equipped with tone and vibration alert alarms. Transmitters are assigned to a user ID, displayed on the call display.

- Suitable as a single or multi-user call pendant alarm
- Waterproof transmitter with soft touch call button
- Call review button - alarm cancel button - setup menu
- Low battery warning for call button and pager
- PAG-11 is compatible with all Rondish transmitters

Call pendant with pager **ORDER CODE PAG-11-ULC11 PRICE £45.00 (£54.00)**

Call pendant only **ORDER CODE MPPL-ERTX PRICE £14.00 (£16.80)**

## POC-940K Long range waterproof call pendant with digital message pager

This call pendant has a typical transmission range of up to 400M. It is compact, lightweight and can be used with either a lanyard or wrist strap, both supplied. The data message pager has tone and vibration alert.

- Suitable for domestic and professional use
- Unlimited call pendants can be monitored by a pager
- Long battery life (up to 6 months) with low battery warning
- Suitable for larger and stone built buildings
- Stores up to 20 call alerts with date and time

Transmitter and pager kit **ORDER CODE POC-940K PRICE £104.00 (£124.80)**

Pendant transmitter only **ORDER CODE POC-940 PRICE £46.00 (£55.20)**

## RONWC2 Waterproof pull cord alarm for disabled toilet with emergency call alarm

This is a complete disabled toilet alarm system for use in public and commercial buildings. The battery powered emergency call alarm is wall mounted and has an audible and flashing light alert when signalled by pulling the cord.

- Wireless pull cord transmitter (Range 60M O/F)
- 3M cord length with red pull triangles
- On-device SOS call & wireless reset button
- Install for CQC and DDA compliance

Complete system **ORDER CODE RONWC2 PRICE £168.00 (£201.60)**

Additional pull cord **ORDER CODE WCP-11 PRICE £56.00 (£67.20)**

## NMDRX-DCTK Medpage wireless door opening alarm with carer alarm receiver

Simple to install door security solution. When the monitored door or window is opened, an alarm signal is transmitted to the portable tabletop alarm receiver, which activates the coloured flashing lights and beeper alarm.

- Dementia and elderly wander detection
- General door and window security
- On device call/panic button
- Sound and visual alert for activated sensor transmitters
- Selectable LED colours to identify active transmitter device
- Powered by 3 x AA batteries

Door transmitter with NMDRX receiver **ORDER CODE NMDRX-DCTK PRICE £49.15 (£58.98)**

## MPPL-DCT Medpage wireless door opening alarm with carer alarm pager

Where a mobile alert to an opening door is required, this kit provides a perfect solution. When the door/window is opened an alarm signal is transmitted to the alarm pager.

- Dementia and elderly wander detection
- General door and window security
- Alarm pager powered by 2 x AA batteries
- Tone/vibration alert with volume selection
- Door alarm powered by 1 x CR2032 battery
- Typical transmitter range 60M

Door transmitter with pager **ORDER CODE MPPL-DCT PRICE £42.66 (£51.19)**

## CTMV-MED-DCT Medpage wireless door opening alarm with voice alarm player

This kit provides a convenient way to remotely trigger playback of a personalised message when a door is opened (internal or external).

- Record safety messages, instructions or warnings for playback when a door is opened
- Useful for care of people with dementia or learning impairment
- Remind people to close a fridge or freezer door
- Useful for blind people to identify opening doors or cupboards

Door transmitter with CTMV receiver **ORDER CODE CTMV-MED-DCT PRICE £48.40 (£58.08)**

## PAG-11C-DCT Wireless door alarm with caller display tone/vibrate pager

This kit provides a simple door alarm solution for single or multiple doors. The caller display will show a user ID to indicate door location.

- Suitable for domestic, Care Home and Hospital use
- Use to detect wandering people exiting internal or external doors
- Can integrate with all Rondish wireless care aids
- Pager powered by 2 x AA batteries
- Up to 99 door alarms (or combined devices) can be paired with the pager
- Typical transmitter range 60M. See signal boosters.

Door kit **ORDER CODE PAG-11C-DCT PRICE £42.66 (£51.19)**

## MPPL-DCT Wireless door/window security alarm with tone/vibrate pager alarm

Quick and easy to install door/window alarm comprising of MPPL-DCT door/window transmitter with our MPPL alarm pager. Simply fix transmitter to door frame using supplied screw pack or Velcro dots. Alarm transmission to pager occurs when door is opened.

- Useful for wander detection
- Door alarm for deaf people
- Vibration and tone alert pager
- Long battery life (typically 6-months)
- Transmitter 1 x CRO 2032 3V battery
- Pager 2 x AA batteries

Door alarm kit **ORDER CODE MPPL-DCT PRICE £42.66 (£51.19)**

## POC-DCK Long range (400M) door alarm transmitter with digital message pager

When a door or window alarm transmitter is required with longer transmission, this kit provides a good solution. The compact transmitter (POC-840DC) is programmed to send location messages to the EM300 message displaying pager. Unlimited transmitters can be used with a single or multiple pagers.

- Use for wander detection & general door/window security with door location message
- Suitable for single or multiple alarm transmitter systems
- Suitable for domestic, Care Home and Hospital use
- Factory programmed default message 'Door Alarm 1'
- Tone/vibrate alert pager powered by 1 x AAA battery

Long range door alarm kit **ORDER CODE POC-DCK PRICE £108.00 (£129.60)**

## MPPL-MSKIT PIR movement sensor transmitter with pager

This easy to install movement alarm kit can be used for general security. It is also beneficial to aid care for the elderly and those living with dementia. When the sensor detects movement an alarm signal is transmitted to the pager.

- Use for bed leaving detection and wander alerts - protect stairwells and doorways
- Long battery life for PIR & pager (6 months)
- Transmitter range up to 100M
- External power on/off switch for PIR
- Tone/vibration alert pager

PIR with pager **ORDER CODE MPPL-MSKIT PRICE £59.00 (£70.80)**

## NMDRX-PIR2 Movement detection PIR wander detection kit with portable alarm

Detect an elderly patient or a person with dementia wandering during day or night with the Medpage NMDRX-PIR2 wander alarm kit.

- An alert is transmitted to a carer when a person walks through a doorway, enters a room, exits the home or enters a high-risk area
- Uses passive infrared technology to detect movement. The NMDRX is a portable ultra-bright flashing coloured LED alarm receiver with chime alert
- Quick and easy installation
- The PIR sensor can be placed anywhere movement detection is required

PIR with NMDRX receiver **ORDER CODE NMDRX-PIR2 PRICE £51.65 (£61.98)**

## CTMV-PIR2 Movement detection PIR wireless activated voice memo player

This kit has many uses for senior and dementia care. Personal warning messages are recorded to the CTMV alarm receiver. Automatic playback of the message starts when signalled by the wireless motion sensor.

- Record warning or instruction messages for alarm playback
- CTMV has 3-Channels, each with independent voice recordings
- Use additional PIR's for different movement triggered alarms
- PIR re-trigger time settings to prevent constant repeats
- Wireless range up to 60M (see signal repeater)

PIR with CTMV receiver **ORDER CODE CTMV-PIR2 PRICE £49.99 (£59.99)**

## FT47C-DTXMK Photoelectric break beam sensor with wireless alarm responder

The FT47C-DTXMK is a compact photoelectric beam set suitable for indoor and outdoor use (shower proof only) to create an invisible narrow beam security solution. An object, person or animal walking through and breaking the beam results in an alarm transmission to the NMDRX alarm responder .

- DC powered beam transmitter with battery powered beam receiver reduces cabling and installation time
- Included alarm responder produces a visual and tone notification
- Ideal for short range (200M) security applications, home wander detection.

**ORDER CODE  
FT47C-DTXMK**

**PRICE £102.00 (£122.40)**

## FT47C-DTXK Photoelectric break beam sensor alarm kit with long range transmitter and digital message pager

The FT47C-DTXK is a compact photoelectric beam set suitable for indoor and outdoor use (shower proof only) to create an invisible narrow beam security solution. An object, person or animal walking through and breaking the beam results in an alarm transmission to the EM300 data message pager.

- Long range alarm transmission (up to 400M)
- Beam range (strong sunlight) 8-12M (low sunlight) 15-17M
- Programmable alert messages (when used with data pager EM300)
- Working voltage IR transmitter 2 x AA Alkaline batteries
- Typical battery life 12 months 10 ops per day
- Working voltage IR receiver: 12V DC power adaptor or battery
- IP rating: IP55 outdoor use (shower proof)

**ORDER CODE  
FT47C-DTXK**

**PRICE £146.00 (£175.20)**

## POC-PIR Message programmable Movement Sensor

When multiple Movement Sensors are required in larger buildings such as Care Homes, Hospitals or buildings known to have signalling difficulties, the POC-PIR is the perfect solution. Furthermore, messages are easily programmed to enable location, device ID or zone to be read from our digital message display pagers (EM300/EM400). Ideal for wander detection and bed leaving detection.

- Message programmable movement alarm
- Long range transmission - 400M+
- Radio frequency: 433MHz
- Adjustable detection beam range
- Side power on/off switch
- Dimensions: 107 x 59 x 39mm
- Weight: 40g
- Power: 2 x AAA batteries
- Supplied with wall mount bracket
- Status LED for power/transmission/signal
- Compatible with EM300 & EM400 pagers
- Compatible with MP900 internet hub
- Supplied with standard message "PIR ALARM" and configured to standard pager radio address code. Customised messages on request.

**Programming software available for Windows and Android Tablets.**

**ORDER CODE POC-PIR PRICE £46.40 (55.68)**

## MULTI-FUNCTION LONG RANGE UNIVERSAL TRANSMITTER 400M+

The NMDTX is designed to operate with all Medpage pressure mat sensors and can be programmed to transmit messages for display on the EM300/EM400 message display pager.

### Selectable operating modes

- Bed occupancy detection
- Chair occupancy detection
- Floor pressure mat
- POCSAG signal repeater
- Alarm input trigger N/O N/C
- Transmitter range 400M+
- Message programmable
- Frequency 433MHz
- POCSAG Messaging
- Status LED power/transmit
- Power 2 x AAA/AC adaptor

**ORDER CODE NMDTX PRICE £51.00 (61.20)**

# FLOOR PRESSURE MAT ALARMS

## MPPL-PMK Floor pressure mat alarm with radio pager

Our best-selling floor pressure mat alarm is ideally suited to the domestic user. The mat is easily concealed under a rug or carpet next to an exit door or the user's bed. When the user steps on the mat, the carer is notified via the MPPL pager.

- 100M transmission range
- 3 alert options: vibrate only, vibrate and low tone or vibrate and high tone
- Robust, lightweight pager with a sturdy belt clip
- Low battery warning for uninterrupted user monitoring
- Pressure mat measures 750mm x 450mm with a 3M connection lead

Complete kit **ORDER CODE MPPL-PMK PRICE £75.00 (£90.00)**

## FMAT-2K Large heavy duty non-slip floor pressure mat alarm kit

This kit is more suited to Care Home or Hospital use. The pressure mat is positioned on the floor next to the patient's bed. Standing on the mat results in alarm transmission to the PAG-11C caller display pager. Can be linked into CMD-11 and CMU-02 nurse call stations.

- Mat measures 48" (1016mm) x 24" (609mm)
- Dual surface - carpet grip and rubberised surface
- Includes nurse call transmitter (BTX-03M)
- Includes carer caller display pager (PAG-11C)
- Suitable for single or multi-patient monitoring

Complete kit **ORDER CODE FMAT-2K PRICE £151.00 (£181.20)**

## PM-POCKIT Floor pressure mat alarm with long range (400M) message transmitter & data message pager

The PM-POCKIT is recommended for larger buildings, stone-built properties or buildings with known signalling difficulties. The pressure mat (750mm x 450mm) can be positioned under rugs or carpets and will transmit an alarm signal when a person stands on it.

The kit comprises of NMDTX long range POCSAG transmitter, 1 x CT-3 pressure mat and 1 x EM300 pager. An unlimited number of long range devices can be configured into a multiple care system. Single kit default message "Pressure Mat Alarm".

Complete single kit **ORDER CODE PM-POCKIT PRICE £130.17 (£156.20)**

# FLOOR PRESSURE MAT ALARMS

## WT-ELB Wi-Fi connected floor pressure mat alarm with Smartphone alerts

For families concerned about elderly relatives living alone, the WT-ELB floor pressure mat alarm will provide peace of mind and valuable time/date stamped information of daily living habits. The powerful free Smartphone APP allows you to set times when the sensor is active and choose the type of alert you want to receive to your phone. When activated, the Wi-Fi controlled sensor will send an alarm signal to your Smartphone via your home/business Wi-Fi connection.

- Wander detection - fall prevention
- Controller powered by 2 x AAA batteries
- Under carpet/rug pressure sensor (750mm x 450mm)
- Pair with home/business broadband (2.4GHz only)

Complete kit **ORDER CODE WT-ELB PRICE £86.66 (£103.99)**

## NMDTX-FMATKIT Heavy duty non-slip floor pressure mat with long range transmitter (400M) & digital data message pager

This kit is recommended for larger buildings, stone-built properties or buildings with known signalling difficulties. The pressure mat 48" (1016mm) x 24" (609mm) can be positioned on top of rugs, carpets, or directly on hard floors and will transmit an alarm signal when a person stands on it.

The kit comprises of NMDTX long range POCSAG transmitter, 1 x FMAT-2 pressure mat and 1 x EM300 pager. An unlimited number of long range devices can be configured into a multiple care system. Single kit default message "Pressure Mat Alarm".

Single system kit **ORDER CODE NMDTX-FMATKIT PRICE £183.00 (£219.60)**

## NMDRX-CTMFP Floor pressure mat alarm with transmitter & portable alarm

This kit includes the CT-3 pressure sensor, NMDRX audible/flashing light alarm and the CTM-3 voice alarm transmitter. A warning message can be recorded for playback when a person stands on the mat. A signal is transmitted to activate the NMDRX.

- Dual purpose alarm - voice prompt and carer alert
- Use for dementia care wander detection
- NMDRX can pair with up to 5 sensors to create expanded care systems

Complete kit **ORDER CODE NMDRX-CTMFP PRICE £102.99 (£123.59)**

## BTXMED04 pressure sensor alarm transmitter (433MHz)

- Pressure sensor pad alarm controller
- Wireless alarm signal to carer receiver
- Tough durable design
- Supplied with rubber protection jacket
- Selectable alarm response (instant, delayed 15 minutes, delayed 30 minutes)
- Suitable for individual or multi-patient systems
- Nurse call peer push input socket
- Central illuminated patient call button
- Alarm reset button
- Sensor pad strain relief protector

ORDER CODE BTXMED04 PRICE £41.21 (£49.45)

## MED04FP Large heavy duty non-slip floor mat

MED-04FP Floor pressure sensor mat supplied with connector adaptor to enable compatibility with all TumbleCare, Medpage/Easylink monitor transmitter products.

- Dimensions: 91.44cm x 60.96cm
- Virtually indistructable
- Cable length: 3M
- Connector type: 6.3mm mono jack plug
- Chlorine resistant to 10pp1000

ORDER CODE MED04FP PRICE £61.00 (£73.20)

Also available in the *TumbleCare* brand

Under-mattress bed leave sensor  
Under-chair cushion chair leave sensor  
Portable wireless alarm multi-channel alarm station  
Multi-channel alarm radio pager  
Waterproof call pendant button transmitter

Visit our website and search [TumbleCare](#) to see the entire range.

## Bed and chair falls wireless sensor pad alarm controller

The MPCSA11 is a radio linked sensor monitor transmitter, designed to provide the essential features required for a modern patient falls monitoring system while maintaining ease of use and setup. The CSA11 is compatible with cordless and cabled bed, chair and floor pressure mat sensors.

A feature unique to the CSA11 is last sensor detection alarm reset. This feature can help to track a person leaving their bed and moving to a chair without an alarm generation. Additionally, a movement sensor can be added to create a comprehensive mobility monitoring system with a last detection timeout alarm to a carer radio pager or telephone emergency dialler to alert off-site carers to a potential fall.

- Wireless 3-channel alarm receiver with adjustable volume tone and visual alert
- Wireless alarm transmission to carer alarm receiver and or emergency telephone auto-dialler
- Use with wireless or cabled sensors
- Comprehensively monitored system status with fault notification
- Selectable alarm delays for: Instant, 15 and 30 minutes
- Selectable alarm volume from silent up to 90dB
- Alarm pause function
- Turn patient reminder alarm signal to carer pager or nurse call station (CMD11)
- Use as a stand-alone single user alarm monitor or incorporated with multi-patient system
- Can be included with a wireless desktop nurse call station and or carer radio pager
- Nurse Call/Telecare output socket connector ¼" Jack Socket
- Manual/Wireless alarm reset option
- Wireless frequency 433MHZ
- Wireless range typically 100M
- Powered by 3 x AA batteries
- Optional AC/DC power adaptor

[Click here to view compatible wireless alarm receivers \(Page 13\)](#)

[Click here to view pressure sensor pads bed, chair, floor \(Page 14\)](#)

**ORDER CODE MPCSA11 PRICE £78.10 (93.72)**

# BED LEAVING ALARMS FOR SINGLE OR MULTIPLE PATIENTS

## CTM-3BKIT Bed leaving detection alarm with recordable voice alarm and pager

The majority of falls occur in the home when a person leaves their bed. With the CTM-3, a voice recording can be made for playback when a person rises from their bed, along with an alarm transmission to the included MPPL tone/vibrate carer alarm pager.

- Can help reduce falls and potential wandering with advanced warning of bed leaving
- Integral transmitter with operating range of 100M
- Under mattress pressure sensor 750mm x 450mm
- Instant (3 second) or 15 minute delayed alarm
- CTM-3 can switch to floor pressure mat mode
- CTM-3 Powered by 3 x AAA batteries or AC adaptor

Bed leaving kit **ORDER CODE CTM3-BKIT PRICE £94.00 (£112.80)**

## NMDRX-CTMB Bed leaving detection alarm with wireless audible/flashing alarm

This kit includes the CTM-3 voice alarm transmitter, bed pressure mat CT-3 and the NMDRX wireless tabletop alarm. The NMDRX is a 5-Channel alarm, which enables the inclusion of additional sensors, such as: Door alarms, worn fall sensors (FA6) or PIR (MED-PIR2). A comprehensive home care system is easily configured.

- NMDRX suitable for deaf/hearing impaired carers
- 5 Independent flashing LED colours to assign to alarm channel

Complete kit **ORDER CODE NMDRX-CTMB PRICE £102.99 (123.59)**

## NMDTXRM-CT3B Bed leaving detection kit with channel selectable alarm transmitter

This kit includes the CT-3 bed pressure mat, NMDRX 5-Channel alarm receiver and the NMDTXM multi-function sensor transmitter. The transmitter channel codes are easily changed to allow additional bed monitors to be included in a system (up to 5), with the NMDRX indicating an active alarm with different coloured flashing channel LED's.

- NMDTXM powered by 2 x AAA batteries
- Transmission range up to 200M

Complete kit **ORDER CODE NMDTXRM-CT3B PRICE £96.31 (£115.57)**

# BED LEAVING ALARMS FOR SINGLE OR MULTIPLE PATIENTS

## CTMV-CT3 Bed leaving detection alarm with recordable voice prompt

This kit is suited to people who may be confused when waking during the night. Upon rising from the bed a personalised message is played back as a warning or instruction. The CTMV is a receiver with 3 voice alarm channels that can be triggered by remote transmitters. A door alarm, for example, could remind a person a door is open before getting into bed.

- Under mattress pressure sensor 750mm x 450mm
- 3-Channel voice recordings of up to 15 seconds each
- Voice alarm CTMV powered by 3 x AAA batteries (included)

Complete kit **ORDER CODE CTMV-CT3 PRICE £56.83 (£68.19)**

## BMDV11-BKIT Dual alarm bed monitor with recordable voice prompt and clothing clip pull-away alarm

This multi-function bed/chair exit alarm monitor from Rondish, offers state-of-the-art fall prevention technology for home and professional care use. The dual alarm trigger function (sensor pad or clothing clip) provides options for bed, chair or W/C. Can be cable connected to Nurse Call system.

- Pull cord clip alarm - use for bed, chair, W/C
- Bed under-mattress pressure sensor
- Recordable voice prompt - "stay in bed" etc

Complete kit **ORDER CODE BMDV11-BKIT PRICE £82.12 (£98.54)**

## BMS-03BKIT Bed leaving alarm under-mattress pressure sensor, audible alarm and nurse call connection output

Basic bed leaving alarm which produces an audible alarm when a patient rises from their bed.

- Under mattress pressure sensor
- Sensor controller with audible alarm
- Sensor pad fault/unplugged alarm
- Powered by 3 x AAA batteries
- Nurse Call connection output jack socket

Controller with sensor **ORDER CODE BMS-03BKIT PRICE £66.00 (£79.20)**

# BED LEAVING ALARMS FOR SINGLE OR MULTIPLE PATIENTS

## *TumbleCare* by Medpage bed occupancy detection pager system

The bed sensor is positioned under a patient's bed mattress to detect their presence or exit. On exit the alarm control transmitter sends a radio alarm signal to the carer radio pager to produce an audible and vibrating alarm notification.

- Complete bed exit detection alarm system
- Radio pager notification to bed exit
- Reduce falls in domestic and professional care
- Hard wearing materials
- Rubber protection jacket for alarm transmitter

**ORDER CODE TUMBSMPLK PRICE £104.70 (125.64)**

## **CBM-03PAGBKIT Bed leaving alarm kit with wire-free under-mattress pressure sensor and caller ID display pager**

Totally cordless bed leaving alarm system. The alarm controller transmitter is concealed in the corner of the sensor. With no visible signs of the sensor under the mattress, tampering and damage by wire pulling is reduced. Kit includes PAG-11C caller ID pager and CBP-01 bed sensor with transmitter.

- Suitable for single or multiple bed monitoring
- Compatible with CMU-02, CMD-11C Nurse Call stations

Kit price **ORDER CODE CBM-03PAGBKIT PRICE £131.30 (£157.56)**

## **NMDTX-BKIT Under mattress bed leaving sensor for Care Homes**

This kit is recommended for larger buildings, stone-built properties or buildings with known signalling difficulties. The bed pressure mat is 750mm x 450mm and is positioned under the bed mattress. When the patient rises from their bed a data encoded display message is transmitted to the carer pager. For example, 'Bed 1'.

The kit comprises of NMDTX long range POCSAG transmitter, 1 x CT-3 pressure mat and 1 x EM300 pager. An unlimited number of long range devices can be configured into a multiple care system. Single kit default message "Bed Alarm".

Single user kit **ORDER CODE NMDTX-BKIT PRICE £140.82 (£168.98)**

# CHAIR LEAVING ALARMS FOR SINGLE OR MULTIPLE PATIENTS

## CTM3-CKIT Chair leaving detection alarm with recordable voice alarm and pager

Falls often occur in the home when a person rises from their chair. With the CTM-3, a voice recording can be made for playback when a person rises from their chair, along with an alarm transmission to the included MPPL tone/vibrate carer alarm pager.

- Can help reduce falls and potential wandering with advanced warning of chair leaving
- Integral transmitter with typical range of to 100M
- Under cushion pressure sensor 380mm x 300mm
- Powered by 3 x AAA batteries or optional AC adaptor
- Monitor holding bracket included

Complete kit **ORDER CODE CTM3-CKIT PRICE £90.75 (£108.90)**

## NMDRX-CTMCK Chair leaving detection alarm with wireless audible/flashing alarm

This kit includes the CTM-3 recordable voice alarm transmitter, chair pressure mat CT-2 and the NMDRX wireless tabletop alarm. The NMDRX is a 5-Channel alarm, which enables the inclusion of additional sensors, such as: Door alarms, worn fall sensors (FA6) or PIR (MED-PIR2). A comprehensive home care system is easily configured (See page 12).

- NMDRX suitable for deaf/hearing impaired carers
- 5 Independent flashing LED colours to assign to alarm channel - 100M wireless range
- Voice reminder and alarm receiver alert on chair exit

Complete kit **ORDER CODE NMDRX-CTMCK PRICE £99.99 (£119.99)**

## NMDRX-NMDTXCKIT Chair leaving detection kit with channel selectable alarm transmitter

This kit includes the CT-2 chair pressure mat, NMDRX 5-Channel alarm receiver and the NMDTXM multi-function sensor transmitter. The transmitter channel codes are easily changed to allow additional chair monitors to be included in a system (up to 5) with the NMDRX indicating an active alarm with different coloured flashing channel LED's.

- NMDTXM powered by 2 x AAA batteries
- Transmission range up to 100M
- Advanced warning fall prevention/wander detection
- Portable alarm receiver with audible/flashing LED's

Complete kit **ORDER CODE NMDRX-NMDTXCKIT PRICE £88.81 (£106.57)**

# CHAIR LEAVING ALARMS FOR SINGLE OR MULTIPLE PATIENTS

## CTMV-CT2 Chair leaving detection alarm with recordable voice prompt

This kit is suited to people who may be unsteady on their feet when rising from their chair. A personalised recordable message is played back as a warning or instruction.

Med  
Page

- Under cushion pressure sensor 380mm x 300mm
- 3-Channel voice recordings of up to 15 seconds each
- Integral alarm receiver with Nurse Call connection output
- Voice alarm CTMV powered by 3 x AAA batteries (included)
- Advanced warning of potential fall or wandering
- Single or looped message playback

Complete kit **ORDER CODE CTMV-CT2 PRICE £56.83 (£68.19)**

## BMDV-11CKIT Dual alarm chair monitor with recordable voice prompt and clothing clip pull-away alarm

This multi-function chair exit alarm monitor from Rondish, offers state-of-the-art fall prevention technology for home and professional care use. The dual alarm trigger function monitor provides options for under chair cushion (pad) or pull-off clothing clip, also useful for W/C. Can be cable connected to Nurse Call.

- Pull cord alarm attaches to clothing
- Under chair cushion pressure sensor
- Recordable voice prompt - "stay in your chair" etc.

Complete kit **ORDER CODE BMDV-11CKIT PRICE £78.40 (£94.08)**

## BMS-03CK Chair leaving alarm under-cushion pressure sensor, audible alarm and nurse call connection output

Basic chair leaving alarm which produces an audible alarm when a patient rises from their chair.

- Under-cushion pressure sensor
- Sensor controller with audible alarm
- Volume adjustment
- Sensor pad fault/unplugged alarm
- Powered by 3 x AAA batteries
- Nurse Call connection output jack socket

Controller with sensor **ORDER CODE BMS-03CK PRICE £62.00 (£74.40)**

# CHAIR LEAVING ALARMS FOR SINGLE OR MULTIPLE PATIENTS

## *TumbleCare* by Medpage chair occupancy detection alarm system

The chair sensor is positioned under a patient's chair cushion to detect their presence or exit. On exit the alarm control transmitter sends a radio alarm signal to the carer alarm station to produce an audible and flashing light alarm notification.

- Complete chair exit detection alarm system
- Wireless carer alarm notification to chair exit
- Reduce falls in domestic and professional care
- Hard wearing materials
- Quality chlorine proof chair sensor
- Suitable for single or multiple patient chair monitoring (with additional monitors)

5-Channel alarm station

**ORDER CODE TUMCSRXTK PRICE £100.30 (120.36)**

## **CBM-03PAGCKIT Chair leaving alarm kit with wire-free under-cushion pressure sensor and caller ID display pager**

Totally cordless chair leaving alarm system. The alarm controller transmitter is concealed in the corner of the cushion. With no visible signs of the sensor under the cushion, tampering and damage by wire pulling is reduced. Kit includes PAG-11C caller ID pager and CCP-01 chair sensor with transmitter.

- Expandable from a single to multiple patient system
- Alarm signal transmitted to pager upon rise from chair
- Compatible with CMU-02 & CMD-11C nurse call stations

Kit price **ORDER CODE CBM-03PAGCKIT PRICE £122.00 (£146.40)**

## **NMDTX-CKIT Under-cushion chair leaving alarm for Care Homes**

This kit is recommended for larger buildings, stone-built properties or buildings with known signalling difficulties. The chair pressure mat is 380mm x 300mm and is positioned under the chair cushion. When the patient rises from their chair a data encoded display message is transmitted to the carer pager. For example, 'Chair Alarm 1'.

The kit comprises of NMDTX long range POCSAG transmitter, 1 x CT-2 pressure mat and 1 x EM300 pager. An unlimited number of long range devices can be configured into a multiple care system. Single kit default message "Chair Alarm".

Single user kit **ORDER CODE NMDTX-CKIT PRICE £127.00 (£152.40)**
