- 40 Why Choose Medpage Limited

Medpage nocturnal epileptic seizure detecting monitors are designed to detect seizure typical movement from a sleeping person. This is achieved using a sensor positioned under the persons bed mattress. Depending on the type of bed, mattress, and the size and weight of the person, Medpage monitors can be adjusted quite easily to successfully detect most convulsive seizures, including cluster and tremor types. Each monitor model has a means of adjusting the sensitivity of the sensor to compensate for the variables detailed above and include a microphone to detect vocalisations preceding or during a seizure. All models also have an adjustable delay control to allow a period of non-seizure movement with no alarm. Turning over or adjusting sleeping position as examples.

## MEDPAGE EPILEPTIC SEIZURE MOVEMENT DETECTOR ALARM MODEL MP5

The Medpage Model MP5 epileptic seizure movement detector is manufactured in the UK by Medpage Limited. This model was first introduced to market in 1996 and has remained the top selling Tonic/Clonic seizure monitor ever since. Why? The monitor is very easy to use and is suitable for general seizures and most bed types. The Medpage MP5, despite its advanced seizure movement analysis software and high grade processing power, is priced to be affordable by families without compromise on quality or performance.

### MONITOR SPECIFICATIONS

- DIMENSIONS L 150MM W 105MM D 45MM
- SEIZURE DETECTED LED LIGHTS TO WARN OF A DETECTED SEIZURE
- POWERED BY 12V POWER ADAPTOR WITH BATTERY BACKUP
- PATIENT VOCAL MONITOR MICROPHONE TO DETECT CHOKING, GRUNTING SOUNDS
- POWER STATUS AND MOVEMENT DETECTION LED'S
- MOVEMENT SENSOR: LEAD LENGTH 3M
- DIMENSIONS: L75MM W 55MM D 25MM
- SILENT ALARM, NO INTERNAL SOUNDERS
- INTERNAL OUTPUT CONNECTOR FOR LINKING TO AUTO DIALLER OR NURSE CALL SYSTEM

### ALARM PAGER SPECIFICATIONS (2 supplied)

Powered by 2 x AA batteries. Lightweight and compact with sturdy belt clip. Alarm options are: vibrate only, vibrate with low volume alarm tone, vibrate with high volume alarm tone. Also includes flashing LED on alarm. Low battery warning. Operating temperature -10°C - +50°C. Dimensions: H 80mm W 60mm D 28mm. Weight including batteries 125gms.

**ORDER CODE MP5 PRICE £205.00 + VAT (£246.00)**

## MEDPAGE MODEL MP5V2

The Medpage Model MP5V2 epileptic seizure movement detector is designed to detect a variety of seizure types from all ages, including tremor, Tonic phase and seizures that cause limb twitching movements. The high performance sensor and control software positively identifies seizure movement from a sleeping person, ignoring usual sleeping movements. A verified ongoing seizure results in an alarm transmission to the carer pagers with a working range of 100M (2 supplied). The sensor (300mm x 200mm x 10mm) has a sensitivity control to allow adjustment for patient body weight and bed/cot mattress type. A permissible movement alarm delay also has a control dial allowing adjustment from 2 – 30 seconds. This setting allows a person to turn over, or reposition themselves without an alarm generated. Settings are digitally stored to prevent tampering or accidental adjustment.

- MP5V2 will detect movements resulting from an epileptic nocturnal seizure including minute prolonged movements from children
- Suitable for all ages babies - adults (conditions apply)
- Large area patented monitoring sensor technology for improved movement detection from most bed and seizure types where movement occurs
- Suitable for Cots/Cribs with memory foam mattresses, single & double beds
- Digital sensitivity control for bed sensor and vocalization microphone
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements, such as turning over
- Detected seizures are notified to carer via radio pager (two supplied)
- Monitor powered by mains power adaptor with 12 hour battery backup
- CE marked in accordance with Medical Directive EEC 93/42/EEC as amended by 2007/47/EC
- Sensor dimensions 300mm x 200mm x 10mm Interconnecting lead 3M
- Monitor dimensions: 150mm x 105mm x 45mm
- Pagers powered by 2 x AA batteries
- Radio frequency 433MHZ - Monitor transmitter range 120M (line of sight)
- Pagers provide two-channel identification when used with two seizure monitors - Ideal for dual patient monitoring at home, hospital or care home to identify active seizure alarm
- Tamper proof settings, monitored connections, fault reporting to pagers
- Ultimate seizure movement monitoring for home and professional care 3 Year warranty - no maintenance or servicing required

**ORDER CODE MP5V2 PRICE £319.16 + VAT (£382.99)**

## MEDPAGE MODEL MP5 ULTRA

The Medpage MP5 ULTRA as its name implies is the most superior seizure monitor in our range. The ULTRA features advanced software programming that accurately detects nocturnal seizure movement from patients of all ages who experience non-typical convulsive seizures.

### What Makes The ULTRA Special?

The ULTRA is pre-programmed with selectable seizure detection modes. The ULTRA also incorporates bed occupancy detection and body movement inactivity monitoring. The ULTRA can be used on specialist bed types including airflow mattresses, with an incredibly high level of movement detection sensitivity and control.

For parents with young children especially, the ULTRA will provide the reassurance that seizures and body movement inactivity will be notified by radio page alarm.

## MEDPAGE MODEL MP2V2 FOR MULTIPLE BED ALARM MONITORING

- Reliable seizure detection for multiple patient monitoring
- Simple to set up and use
- For multiple patient epileptic seizure monitoring (unlimited)
- Active seizure alarm information transmitted to data pager
- Desktop alarm with audible and visual status indicators
- Wire-Free alarm transmission around any building - long range digital signal transmission (license free)
- Integration with enuresis, occupancy and Telecare sensors
- Large area patented monitoring sensor technology for improved movement detection from most bed and seizure types where movement occurs
- Suitable for Cots/Cribs with memory foam mattresses, single & double beds
- Digital sensitivity control for bed sensor and vocalization microphone
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements, such as turning over
- Detected seizures are notified to carer via radio pager and desktop alarm
- Monitor powered by mains power adaptor with 18 hour battery backup
- CE marked in accordance with Medical Directive EEC 93/42/EEC as amended by 2007/47/EC
- Sensor dimensions: 300mm x 200mm x 10mm Interconnecting lead 3M
- Monitor dimensions: 150mm x 105mm x 45mm

**MPRX4 DESKTOP ALARM**

**EM300 DATA PAGER**

### EM300 ALARM PAGER

- OVERALL DIMENSIONS  
W 60mm H 42mm D 18mm
- DISPLAY AREA 52mm x 28mm  
CHARACTER HEIGHT 8mm
- CHOICE OF 4 TONES WITH VOLUME
- ADJUSTMENT + VIBRATION ALERT
- DISPLAY BACK LIGHT
- FREQUENCY 433.92Mhz
- TIME & DATE DISPLAY
- STORES UP TO 20 CALL ALERTS WITH CALL HISTORY

In use the MPRX4 will provide individual alarm identification for up to 4 seizure monitors. If, for example up to 10 or more seizure monitors are required, each seizure monitor will send an active alarm identification message (patient name, bed or room number) to the EM300 nurse pager. The MPRX4 will sound a general alarm to alert staff of an active seizure monitor. The MPRX4 is designed to provide comprehensive patient safety and ease of use for care staff.

For full details and pricing visit <http://www.easylinkuk.co.uk/page5.html>

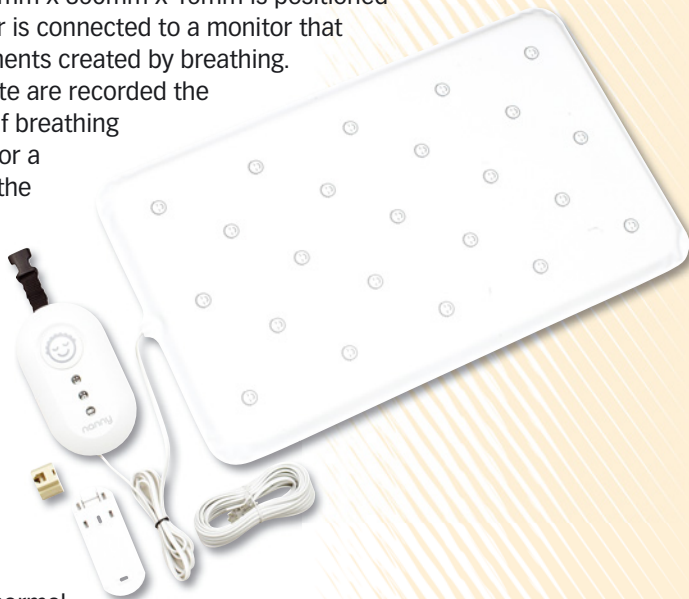

## NANNY (BM-02) APNOEA MONITOR - CESSATION OF BREATHING ALARM

The Nanny BM-02 is designed to monitor the breathing movements of sleeping children. A sensor sheet measuring 550mm x 350mm x 15mm is positioned under the mattress. The sensor is connected to a monitor that analyses the tiny chest movements created by breathing. If less than 8 breaths per minute are recorded the alarm will sound. Additionally, if breathing movements are not detected for a period exceeding 20 seconds, the alarm will sound. When the alarm is activated it must be reset at the monitor to acknowledge the alarm.

The Nanny BM-02 has LED's that indicate: confirmation of breathing detected, low battery warning and sensor fault.

The sensor is enclosed in a washable vinyl pocket where normal strength disinfectant may be used should the sensor become soiled. The sensor has a two metre connection lead with a 5 metre extension lead supplied to enable positioning of the monitor alarm outside of the patients room.

The Nanny BM-02 is suitable for children with medical conditions that may cause cessation of breathing including; babies at risk from cot death (SIDS) children with Epilepsy at risk from SUDEP. Certified medical device.

**ORDER CODE BM-02 PRICE £82.05 + VAT (£98.46)**

## ENUSENS INCONTINENCE ALARM WITH WIRELESS ALARM RECEIVER

### MULTI-FUNCTION ENURESIS MONITOR

- ADULT INCONTINENCE SENSOR MONITORING ALARM
- CHILD BED WETTING TRAINER
- USE FOR BED - CHAIR - WHEELCHAIR
- VOMIT DETECTION INSIDE PILLOW CASE

Manufactured to a very high standard, the EnuSens provides a reliable means to detect incontinence episodes. The sensor, made from cotton fabric is designed to provide comfort for the user when positioned under the bed sheet, or inside a pillow for vomit detection. Both the monitor transmitter and the alarm receiver are powered by 3 x AAA batteries providing 3 - 6 months of continuous use.

### ALARM/CONNECTION OPTIONS

- INTEGRAL BEEPER WITH VOLUME CONTROL
- SILENT ALARM FOR USE WITH PAGER ALARM
- NURSE CALL CONNECTION VIA RELAY OUTPUT
- CONNECTION TO TELEPHONE AUTO DIALLER

### FEATURES GENERAL SPECIFICATIONS

- POWERED BY 3 X AAA BATTERIES OR DC ADAPTOR
- MACHINE WASHABLE SOFT FABRIC ENURESIS SENSOR
- TUMBLE DRY SAFE
- STAINLESS STEEL SENSOR CONNECTORS
- ALARM RECEIVER RELAY OUTPUT SOCKET WITH C, N/O N/C
- MOISTURE SENSITIVITY CONTROL
- SENSOR INPUT SOCKET
- WIRELESS ALARM RANGE 100M (5 CHANNEL FOR UP TO 5 MONITORS)
- POWER STATUS LED WITH LOW BATTERY ALERT
- ALARM ACTIVE INDICATOR LED
- MONITOR ALARM VOLUME CONTROL SWITCH - 85dB, 75dB, OR SILENT
- BATTERY LIFE 3 - 6 MONTHS CONTINUOUS USE
- INCONTINENCE ENURESIS SENSOR: 750mm X 450mm CONNECTOR LEAD 1M
- MONITOR DIMENSIONS: H 85MM W 57mm D 30mm
- ALARM DIMENSIONS: H 85mm W 57mm D 30mm
- WALL MOUNTING OPTION - SCREW PACK OR VELCRO DOTS
- SENSORS GUARANTEED FOR 12 MONTHS

**Kit Includes:** EnuSens monitor transmitter, EnuSens alarm receiver and 1 x cotton enuresis sensor. Batteries included.

**ORDER CODE ELES-02K1 PRICE £58.29 + VAT (£69.95)**

<http://www.easylinkuk.co.uk/page35.html>

A high percentage of falls occur in the home or in care when a person rises from their bed or chair. Our systems will help to reduce falls.

### **CTM-3 WITH VOICE ALARM & PAGER**

The CTM-3 monitor is an extremely versatile system providing radio paging alert to a person rising from their bed or chair. Additionally, the CTM-3 includes integral voice recording to allow personal reminder messages to be played back to request a person to remain in bed or sitting on their chair.

The CTM-3 can be used singularly or as part of a multiple bed/chair monitoring system and can be connected directly to most nurse call or Telecare systems.

Supplied as convenient bed/chair kits or individual items.

### **CTM-3 SPECIFICATIONS**

- POWER: 3 x AAA BATTERIES
- TRANSMITTING RANGE 100M
- NURSE CALL RELAY OUTPUT
- 15 MINUTE ALARM DELAY OPTION
- VOICE RECORDER (15 SEC)
- ALARM: VOICE/SILENT/BEEPER/PAGER
- SUPPLIED WITH WALL/BED HOLDER
- LOW BATTERY WARNING
- ALARM RESET BUTTON
- DIMS: H 125mm W 75mm D 25mm
- TX FREQUENCY 433.92 Mhz

**BED AND CHAIR RISE ALARM WITH RADIO PAGER****MEDPAGE BED & CHAIR OCCUPANCY ALARM SYSTEMS**

This new advanced system provides alerts for bed and chair rise with alarm transmitted to the new Medpage pager with LCD display. Multiple bed monitors can now be used with bed ID and location details. The pager will link to all Medpage transmitter products. Ideal for home use and professional care. Pager can also be used with door alarms, PIR, and floor mats.

**SENSORS (BED & CHAIR)**

Sensors are manufactured in high quality polyvinyl and are fitted with a 2M lead for connection to the monitor transmitter. Normal strength disinfectants can be used to sterilise the sensors if required. Sensors are consumable items.  
 Chair sensor (SEN-2) 15" x 12" Bed Sensor (SEN-1) 30" x 20"

**ALARM TRANSMITTER BTX-03M**

- 15 MINUTE ALARM DELAY OPTION
- TRANSMITTER CASE DIMENSIONS H 115MM W 75MM D 20MM
- CASE MATERIAL ABS
- WALL FIXING LUGS ON REAR OF CASE
- TRANSMISSION FREQUENCY 433.92 MHZ
- RANGE 200M (OPEN FIELD)
- POWER REQUIREMENT 9V PP3 OR MAINS 12V DC POWER ADAPTOR
- LOW BATTERY WARNING SOUND + FLASHING LED
- BUILT IN NURSE CALL BUTTON, ALARM RESET BUTTON

**MEDPAGE PAG-11C PAGER**

New pager with vibration only or tone beeper alert. Pager has LCD display for device ID, location and general system status. Operates with any Medpage or Easylink transmitter product. Powered by 2 x AA batteries. Dimensions W 55mm H 75mm D 25mm. Strong belt clip. Low battery warning. Alarm volume control. Alarm display, volume control, stored alarm review button.

Bed alarm kit **ORDER CODE RCG-1M PRICE £105.00 + VAT (£126.00)**

## **BME-03 BED AND CHAIR RISE ALARM FOR NURSE CALL**

The BME-03 is our standard bed and chair occupancy alarm, which is widely used in care and residential homes as it connects easily to most nurse call or Telecare systems. A bed or chair sensor plugs into the monitor/alarm unit, which raises an alarm if the user rises from their bed or chair. An integral alarm tone sounds until the alarm is reset. When connected to a nurse call system the integral alarm can be set to silent.

- BED CHAIR AND FLOOR PRESSURE MAT ALARM MONITOR
- BATTERY POWERED 3 x AA BATTERIES OR MAINS POWER ADAPTOR
- 1/4" OUTPUT JACK FOR NURSE CALL OR DEVICE CONNECTION
- INTERNAL BEEPER WITH VOLUME CONTROL FROM SILENT TO 95dB
- FOR USE WITH BED OR CHAIR OCCUPANCY SENSORS
- SENSOR MONITORING WITH ALARM FOR DISCONNECTION/FAULT
- STRAIN RELIEF CLIP TO PROTECT SENSOR CABLE
- STATUS MONITOR LED - LOW BATTERY WARNING LED
- SET UP AND IN USE IN SECONDS
- TOUGH DURABLE HOUSING
- ON/OFF POWER SWITCH AND RESET CONTROL
- ALARM AUTO RESET AND CANCEL WITH RETURN TO BED/CHAIR
- MONITOR DIMENSIONS: 120MM x 78mm x 33mm
- WEIGHT (including batteries) 200g

Monitor alarm only **ORDER CODE BME-03 PRICE £38.00 + VAT (£45.60)**  
 Bed sensor 30" x 20" **ORDER CODE SEN-1 PRICE £28.00 + VAT (£33.60)**

## **CBM-03 WIRE-FREE BED AND CHAIR RISE ALARM**

Totally cordless bed and chair occupancy monitoring alarm system eliminates the necessity of cabling connections between sensor, transmitter and alarm receiver unit. The bed and chair sensors have a specially moulded pocket that stores a miniature transmitter. When positioned under the mattress or chair cushion of the patient, there are no visible signs to tempt vandalism or tampering.

### **CORDLESS MONITOR ALARM - FEATURES**

- Wireless alarm link with bed/chair sensor transmitter
- Battery (3 X AA) or mains power adaptor powered
- Low battery alert for sensor transmitter and monitor alarm
- Choice of alarm tones with volume setting
- 6.3mm (¼") nurse call connection output socket
- Polling (radio supervision) from bed/chair sensor transmitter. Simple set up and use
- Designed to meet the requirements of caring for people with special needs, learning disabilities, Autism and aggressive dementia patients.
- Operating Frequency 433.92 Mhz
- Can be used with Medpage display pager PAG-11c
- Low power radio license exempt
- Operating range 100 Metres (open field) from sensor transmitter
- Housing: 110mm x 77mm x 28mm
- Tamper proof secure reset

### **TRANSMITTER SPECIFICATIONS**

- Powered by 2 x 3V lithium batteries
- Housing: 68mm x 54mm x 10mm
- Red LED transmit confirmation LED (diagnostic)
- Connector: Miniature connector inside pad pocket for easy replacement. Tamper proof radio connection link

### **BED AND CHAIR SENSORS SPECIFICATIONS**

- Chair sensor: (CCP-01) 375mm x 250mm
- Bed sensor: (CBP-01) 660mm x 510mm
- Sensor pads are supplied with transmitter module and are included in the price
- Sterilization: 1000ppm Sodium Hypochlorite or alcohol wipes

**CBM-03** Totally Cordless Bed/Chair Monitoring Alarm **£61.20 + VAT (£73.44)**

**CBP-01** Cordless Bed Pad (includes transmitter) **£70.10 + VAT (£84.84)**

**CCP-01** Cordless Chair Sensor (includes transmitter) **£60.80 + VAT (£72.96)**

Wireless alarms to warn of building or room exit. Easylink supply a diverse range of alarm sensors for detecting people on the move and when doors or windows are opened.

These examples are shown in kit form for convenience.

### MPPL-DCKIT DOOR ALARM TRANSMITTER TO PAGER

Quick and easy to install door/window alarm comprising of MPPL-DC door/window transmitter with our MPPL alarm pager. Simply fix transmitter to door frame using supplied screw pack or Velcro dots. Alarm transmission to pager occurs when door opened. Transmitter 1 x 9V battery. Pager 2 x AA batteries. Transmission range 100M. All batteries included. Up to 10 transmitters can be used with the tone/vibration alert pager.

**ORDER CODE MPPL-DCKIT PRICE £61.00 + VAT (£73.20)**

Transmitter **ORDER CODE MPPL-DC PRICE £30.00 + VAT (£36.00)**

<http://www.easylinkuk.co.uk/page92.html>

### MPPL-MSKIT PIR TRANSMITTER TO PAGER

MPPL-MS PIR transmitter with MPPL tone/vibration alert pager. PIR can be wall mounted or used with stand. This simple to install kit has many uses including wander detection, detecting a person leaving their bed, general security, and room entry.

The PIR transmitter has a range of 100M and is powered by 2 x AA batteries. An On/Off switch allows the PIR to be turned off when not required. Supplied with screw fixing pack and Velcro dots.

**ORDER CODE MPPL-MSKIT PRICE £59.00 + VAT (£70.80)**

PIR transmitter only **ORDER CODE MPPL-MS PRICE £28.00 + VAT (£33.60)**

Stand only **ORDER CODE MPPL-MSST PRICE £2.50 + VAT (£3.00)**

## LONG RANGE (400M) DOOR ALARM TRANSMITTER WITH PAGER

POC-DCK When a door or window alarm transmitter is required with longer transmission this kit provides a good solution. The compact transmitter (POC-DC) can be programmed to send location messages to the EM300 message displaying pager making it suitable for multiple door/window alarm requirements. The transmitter is powered by a 3V Lithium long life battery (supplied) and has an On/Off switch. The pager is powered by 1 x AAA battery. Unlimited transmitters can be used with single or multiple pagers.

Door transmitter and pager kit (Default message Door Alarm)

**ORDER CODE POC-DCK PRICE £108.00 + VAT (£129.60)**

Transmitter only **ORDER CODE DC-POC PRICE £50.00 + VAT (£60.00)**

## LONG RANGE PIR TRANSMITTER WITH MESSAGE TRANSMITTER

Introducing the first POCSAG PIR transmitter.

This long range PIR transmitter can send identification messages to the EM300 pager making it ideal for Care and Residential homes to quickly locate a person that may have wandered into a restricted or dangerous area.

The transmitter is powered by 2 x AA batteries and is supplied with wall fixing pack and Velcro dots.

Long range PIR transmitter with message pager

**ORDER CODE POC-MSK PRICE £126.00 + VAT (£151.20)**

PIR transmitter only **ORDER CODE POC-MS PRICE £68.00 + VAT (£81.60)**

Stand only **ORDER CODE MPPL-MSST PRICE £2.50 + VAT (£3.00)**

## PHOTOELECTRIC BREAK BEAM ALARM WITH PAGER

MPPL-FT25B When it is not practical to use a door contact switch or PIR to detect a person moving around, this kit offers a reliable alternative. The beam set is positioned across a doorway or corridor. A person walking through the invisible beam will activate the transmitter to signal the alarm pager. Beam receiver powered by 9-12VDC via supplied power adaptor. Beam transmitter powered by 2 x 3.6V Lithium batteries. Transmitter can be powered from beam set or 9V battery.

**Complete beam kit comprising:** Beam set with power adaptor, batteries, alarm pager, beam alarm transmitter.

**ORDER CODE MPPL-FT25B PRICE £113.50 + VAT (£136.20)**

<http://www.easylinkuk.co.uk/page30.html>

## WRISTBAND ACTIVATED DOOR EGRESS ALARM

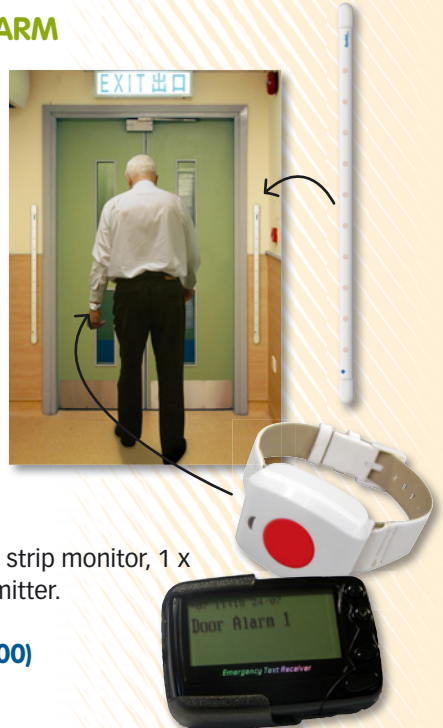

DoorWatcher, a high-tech, simplistic looking wander detection system for single or multiple wearers of RF tagging wristbands. When a person wearing a tag approaches the range adjustable door monitor strips an alarm is generated via radio signal to a pager, or by flashing a bank of LED's on the strip and/or internal buzzer.

The DoorWatcher is very quick and easy to install and provides invaluable support for resident monitoring and egress prevention. The DoorWatcher can control electronic locks and connect into paging and Telecare systems, or any Easylink telephone auto dialler for offsite warnings.

**DoorWatcher System comprising:** 1 x DoorWatcher strip monitor, 1 x resident wristband, 1 x wireless manager reset transmitter.

**ORDER CODE DWSYS PRICE £330.00 + VAT (£396.00)**

<http://www.easylinkuk.co.uk/page47.html>

## MPPL-PMK STANDARD FLOOR PRESSURE MAT 750mm X 450mm WITH PAGER ALARM & TRANSMITTER

**MPPL-PMK** This pressure mat kit uses our top selling tone and vibration alarm pager, the MPPL. The pressure mat can be concealed under a rug or carpet next to a persons bed, or near an exit door to provide a localised alarm sensor. The MPPL can easily be integrated with additional sensors such as, door contact transmitters, help call buttons, PIR transmitters and customizations (MPPL range of products). Also see transmitter signal booster and further connection options at the end of this section.

Complete Kit **ORDER CODE MPPL-PMK PRICE £75.50 + VAT (£90.60)**  
 Pressure Mat With Transmitter **ORDER CODE CT3-MPTXU PRICE £44.50 + VAT (£53.40)**  
<http://www.easylinkuk.co.uk/page11.html>

## MPPL-FMAT HEAVY DUTY NON-SLIP FLOOR PRESSURE MAT WITH PAGER ALARM

The F-MAT-01 is a non-slip large heavy duty floor pressure mat that is used with a transmitter to signal the MPPL alarm pager. Mat measures 48" x 24" and can lay directly on top of tiled floors, and carpets. Available as a kit including 1 x MPPL alarm pager, 1 x alarm transmitter, 1 x FMAT-01 non-slip pressure mat, to include all required batteries. Up to 10 pressure mats with transmitter can be used with one or multiple MPPL alarm pagers. The MPPL pager has two separate channels providing individual alarms for two pressure mats.

Complete alarm kit as detailed above  
**ORDER CODE MPPL-FMAT PRICE £133.50 + VAT (£160.20)**  
 Pressure mat with transmitter  
**ORDER CODE FMAT-TXU PRICE £102.00 + VAT (£122.40)**  
 Pressure mat only  
**ORDER CODE FMAT-01 PRICE £74.00 + VAT (£88.80)**  
<http://www.easylinkuk.co.uk/page11.html>

**PM-POC UP TO 400 METRE ALARM TRANSMISSION RANGE**

The PM-POCKIT is ideal for larger buildings, stone built properties or buildings with known signalling difficulties. The pressure mat (750mm x 450mm) can be positioned under rugs or carpets and will transmit an alarm signal when a person stands on it. Quick and easy to install.

- PRESSURE MAT 750mm X 450mm WITH 3METRE LEAD
- TRANSMITTER POWERED BY 2 x AAA BATTERIES (SUPPLIED)
- TRANSMITTER SENDS TEXT MESSAGE TO MESSAGE PAGER - CAN BE PROGRAMMED WITH A MESSAGE OF YOUR CHOICE "ROOM 5" etc.
- UNLIMITED TRANSMITTERS CAN BE USED WITH SINGLE OR MULTIPLE PAGERS
- TRANSMITTER INCLUDES CALL/EXTRA HELP REQUIRED BUTTON
- QUICK & EASY INSTALL - NO WIRING REQUIRED
- DESIGNED FOR UNDER CARPET USE

**PAGER FEATURES/SPECIFICATION**

- POCSAG FORMAT ALPHANUMERIC PAGER 433.92 MHZ
- DIMENSIONS: 60mm X 42mm X 18mm
- POWER: 1 x AAA BATTERY (SUPPLIED)
- REMOVEABLE BELT CLIP - LCD BACK LIGHT - 20 MESSAGE STORAGE
- 8 PAGING ADDRESSES + PAGER GROUP CALL
- REAL TIME CLOCK WITH DAY/DATE & ALARM FUNCTIONS
- LOW BATTERY ALERT

Pressure mat kit including: 1 x transmitter, 1 x pager, 1 x pressure mat

**ORDER CODE PM-POCKIT PRICE £130.17 + VAT (£156.20)**

**POCSAG RADIO SIGNAL BOOSTER/REPEATER  
EM-1600U POCSAG FORMAT DATA SIGNAL REPEATER**

The EM-1600U is a powerful (100mW) transceiver that can extend, for example, the POC-940 transmitter from 400M up to 1 Kilometre in ideal conditions. The repeater is supplied with a wall fixing kit and a DC mains power adaptor. The repeater is factory setup to receive and boost all Easylink POCSAG format data messages.

Dimensions: W 225mm H 140mm D 30mm. Power LED and on-air LED.

**ORDER CODE EM-1600U PRICE £120.00 + VAT (£144.00)**

## MPPL-RPT Signal Repeater

This signal repeater is designed to extend the transmission range of all MPPL transmitter products and can be daisy-chained with additional repeaters to further increase range. The repeater is powered by a mains power adaptor and includes rechargeable battery backup. Furthermore, the repeater has connection terminals to provide a switched output in response to received alarm signals. Installation is very quick and easy as the repeater auto-configures to all MPPL transmitter products.

The repeater can be used with our Medpage seizure alarms, call buttons, CTM-3 bed alarm, door alarms, and movement sensors, to extend transmitter range for Care Homes and larger domestic buildings. The output can also be connected to our range of emergency telephone auto diallers.

**ORDER CODE MPPL-RPT PRICE £84.00 + VAT (£100.80)**

## MPPL-RX2 2-CHANNEL UTILITY RECEIVER FOR MPPL PRODUCTS

The MPPL-RX2 is a 2-channel utility receiver for use with the MPPL range of transmitters. The receiver is powered from 12V DC source such as a battery, alarm panel, or power adaptor. Two independent 1amp relays provide volt free contacts for C, N/O, N/C connection configuration. The relays can be set to provide a timed output for 3 seconds - 30 minutes. Each relay output can be configured with jumper switches. Up to 20 transmitters can be learned into the coding memory (CH1 or CH2) making it flexible and simple to set up. All connections are via external wires.

- 2-CHANNEL ALARM LINK RADIO RECEIVER
- OPERATING FREQUENCY: 433.92Mhz
- 20 TRANSMITTER CAPACITY
- OPERATING VOLTAGE 12V DC
- CASE DIMENSIONS 110mm x 77mm x 30mm
- WALL FIXING LUGS
- RELAY RATING DC (24V) @ 1AMP
- COMPATIBLE WITH ALL MPPL TRANSMITTERS

**ORDER CODE MPPL-RX2 PRICE £52.60 (£63.12)**

The products in this section provide a means for a person to wirelessly call for help by pressing a transmitter button. The systems provide for in-house carer alert via pager or off-site alert via automatic telephone auto dialler. See Page 33.

## LARGE CONTACT AREA TRANSMITTER SWITCH WITH PAGER

For people with poor dexterity or physical disability that inhibits use of a conventional help call switch, the MPPL-JSK provides a reliable solution. The kit comprises 1 x MPPL tone/vibration alarm pager, 1 x MPPL-TXU universal transmitter and 1 x Jelly Switch. The Switch has an activation area of 65mm and is fitted with a 1.4 Metre connection lead, terminated with a 3.5mm jack plug. The switch can be activated very easily requiring a minimal amount of pressure. The transmitter will signal the pager at distances of up to 100 Metres. See signal repeater Page 18.

To aid people with cognitive problems, dementia, learning disabilities, the switch cover can be unscrewed to allow a graphic or photo to be placed under the clear plastic switch cover.

MPP-TXU Powered By 1 X Pp3/Mn1400 Battery (Supplied)  
**ORDER CODE MPPL-JSK PRICE £67.20 + VAT (£80.64)**

Additional transmitters and switches can be used with single or multiple pagers.

Additional Lib Switch **ORDER CODE LIB-01 PRICE £22.50 +VAT (£27.00)**  
 Additional transmitter **ORDER CODE MPPL-TXU PRICE £28.50 + VAT (£34.20)**  
<http://www.easylinkuk.co.uk/page18.html>

## SIMPLE LOW COST TRANSMITTER BUTTON WITH PAGER

Help call pendant transmitter with alarm radio pager. When help is needed by a live-in partner who may be hard of hearing, or in the garden, this simple kit ticks all the boxes. Manufactured using quality components, the transmitter (with free "high vis" lanyard) can achieve a call range of up to 150M with the antenna extended. The pocket size pager with vibration alert and vari-tone alarm will certainly attract attention when help is needed. Pager powered by 2 x AA batteries. Transmitter 1 x A23 battery. All supplied.

**ORDER CODE ET-RX1 PRICE £16.62 + VAT (£19.95)**  
<http://www.easylinkuk.co.uk/page52.html>

## SOFT TOUCH LOW TACTILE PILLOW SWITCH WITH PAGER

**Pillow Switch** An easy to operate switch with a foam rubber switch surface and a washable fabric protective pouch. A severely disabled person can operate the switch with their cheek or head with the lightest of touches. The switch can be used with the MPPL-TXU transmitter and MPPL alarm pager for help call applications. Special adaptations are available using this switch for lighting control, electrical appliance control and much more.

- VELCRO AND SAFETY PIN PILLOW ATTACHMENT (SUPPLIED)
- SWITCH ACTIVATION AREA 80MM
- CONNECTOR LEAD 1.5M
- TOTAL WEIGHT 63g

Pillow Switch Help Call With Alarm Pager Kit

**ORDER CODE MPPL-PSKIT PRICE £142.00 + VAT (£170.40)**

<http://www.easylinkuk.co.uk/page134.html>

## SOUND ACTIVATED VOICE DETECTING TRANSMITTER WITH PAGER

The MPPL-SAT is a sound activated transmitter with many uses. An integral transmitter sends signals to the MPPL alarm pager in response to detected sounds. The level of sound required to generate an alarm is governed by a 3-way sensitivity switch. An additional control inside the battery compartment enables selection of frequency recognising modes to suit particular applications, detecting a baby crying or a person making a sound as a help call, as examples.

- POWERED BY 2 X AA BATTERIES
- LOW BATTERY LED & TRANSMISSION
- 3-WAY SENSITIVITY SWITCH LOW, MED, HIGH
- SOUND FREQUENCY SELECTION
- LONG BATTERY LIFE 3 -6 MONTHS
- FREQUENCY 433.92MHZ
- OPERATING RANGE 120 METRES (OPEN FIELD)
- DIMENSIONS: 80mm x 55mm x 22mm

**ORDER CODE MPPL-SATSET PRICE £74.96 + VAT (£89.95)**

Sound transmitter only **ORDER CODE MPPL-SAT PRICE £43.96 + VAT (£52.75)**

<http://www.easylinkuk.co.uk/page57.html>

## LONG RANGE WATERPROOF PENDANT WITH MESSAGE PAGER

**POC-940K** A press of the bell button is all that is required to send a help message to the pager with a range of up to 400 Metres. The waterproof transmitter button measuring only 25mm diameter with a depth of 12mm is supplied with a lanyard and resin wrist strap. The transmitter can be programmed with a message of your choosing (up to 40 characters), default message is Help Required.

EM300 Pager is powered by 1 x AAA battery and has selectable tone/vibration alert modes, with time display and alarm reminder setting options. Messages sent from the transmitter are displayed on the screen and can be stored with a time and date record.

## SMART PHONES FOR THE OVER 50'S

As we all begin to age, we realise that we may be slightly out of touch with advancing technology. Here are a couple of the best easy to use smart phones that make texting, using the internet and popular APPS a real doddle. Full details on our website, along with special offers including personal trackers. <http://www.easylinkuk.co.uk/page83.html>

### AMPLICOMMS POWERTEL 9000

The Amlicomms PowerTel M9000 is an easy to use smart mobile phone designed for the over 50's. It offers all the benefits of a touch-screen Android smart phone without being over complicated and allows you to switch from its standard android menu system to a simpler senior menu system.

**M9000 £91.62 + VAT (£109.95)**

<http://www.easylinkuk.co.uk/page83.html>

### DORO LIBERTO 820 MINI

Packed with support features, this pocketfriendly, big-hearted smartphone is perfect for first time users. It can be remotely managed by someone you trust, and the Assistance button offers extra security. Large text option, easy menus, camera, it's all there.

**820M £133.29 + VAT (£159.95)**

<http://www.easylinkuk.co.uk/page83.html>

## MemRabel™ **NEW MODEL (2015)**

- RECORD UP TO 4 PERSONAL VOICE REMINDERS (20 seconds each)
- SET UP TO 4 ALARMS DAILY OR WEEKLY FOR THE VOICE MESSAGES TO BE PLAYED BACK
- MESSAGES REPEAT DAILY OR WEEKLY AS SET
- NEW BED LEAVING ALARM FEATURE AND EXTERNAL ALARM TRIGGERING

**VOICE MEMO REMINDER**

The original MemRabel just got even better with improved voice volume and clarity and now includes a transmitter to signal an alarm device that the reminder alarm was not acknowledged, to warn a relative or carer that medication was missed, or that there may be a problem.

MemRabel is equipped with input and output sockets to allow connection of external products and now includes a bed occupancy mode, which can send an alarm signal to a pager and play back a reminder message, such as "stay in bed someone will be along to help in a minute". Additionally, MemRabel's time display back light comes on to provide a low level light to further reduce the possibility of a fall if the person leaves their bed. A programmable alarm delay can be set to allow nightly W/C visits with no alarm unless the person fails to return to bed. Bed occupancy mode can be set to turn off automatically at a specific time.

**OPTIONAL PAGER ALARM**

### **GENERAL SPECIFICATIONS**

- Housing Dimensions: W 155mm H 125mm D 35mm
- Display Dimensions: W 100mm H 95mm

<http://www.easylinkuk.co.uk/page139.html>

**WATER OVERFLOW ALARM - IDEAL FOR BATHS & SINKS**

Quick and easy to install water overflow/rise level detection alarm. Position suction cup at desired bath water level, when the water reaches the sensor an alarm signal is transmitted to the alarm receiver. Adjustable alarm volume. Alarm receiver has a relay output for connection to external alarms or Telecare.

Transmitter and alarm receiver powered by 3 x AAA batteries. Sensor lead 2M.

Also suitable for basement flood detection and wet floors.

**ORDER CODE WLA-02 PRICE £41.62 + VAT (£49.95)**  
<http://www.easylinkuk.co.uk/page34.html>

**GSM LOW/HIGH TEMPERATURE AND MAINS POWER FAILURE WARNING**

Envirotxt® is a new innovative GSM (mobile) device that monitors temperature and power loss. Envirotxt® has a built in temperature sensor, which can alert at pre-programmed thresholds from -10 degrees to +50 degrees. Envirotxt® uses a SIM card to send text message alerts through the mobile network and it has several main Functions.

The three main functions are;

- 1) Envirotxt® will send a text message alert if the mains power is lost (e.g. a power cut) and when the power is restored
- 2) Envirotxt® sends a text message alert when a pre-set temperature is reached (e.g. if you set the temperature at 3-20 degrees Envirotxt® will send a text message alert when the temperature drops below 3 degrees or goes above 20 degrees)
- 3) Envirotxt® has a fast temperature rise alert so if the ambient temperature rises too quickly (e.g. more than 5 degrees in 3 minutes) then it will send a text message alert

**ORDER CODE ENVIROTXT PRICE £79.96 + VAT (£99.95)**

## PERSONAL TRACKER - THE QUICK WAY TO LOCATE MISSING PEOPLE

The MT-02 tracker provides a comprehensive location and emergency communication solution. When a little extra care is needed to aid people live a more independent lifestyle, the MT-02 can increase confidence and peace of mind.

The MT-02 is a rechargeable tracker that uses SAT NAV and mobile telephone technology to provide, on request, location details of the tracker. The MT-02 operates like a mobile phone where a mobile network SIM card is inserted into the tracker. The phone number of the SIM card is used to send and receive data between authorised family or carer mobile telephones. To obtain location details of the tracker a text message or a phone call is made to the tracker. A return text is sent to authorised mobiles containing: A hyperlink to Google Mapping, location coordinates. Any internet enabled mobile telephone can quickly view the location details on Google Mapping. Coordinates can also be entered into a mapping service via a PC or notebook/pad. Includes SOS button, fall sensors and 2-way communication.

**There are no monthly or ongoing costs with the MT-02.** All that is required is a mobile telephone network SIM card (Virgin or Vodafone recommended), contract or pay as you go. The MT-02 is supplied with 2 x 800mA batteries, charger with mini USB connector, separate charger, manual. Requires network SIM card. (NOT SUPPLIED)

**ORDER CODE MT-02 PRICE £124.96 + VAT (£149.95)**

<http://www.easylinkuk.co.uk/page104.html>

## MOBILE PHONE WITH PERSONAL GPS TRACKING

The tracker phone is an easy to use mobile phone with rear SOS button, 3 x one-touch memory dial buttons, built-in torch and FM radio. With a talking keypad and high contrast large text display the phone is suitable for people with mild visual impairment. To locate the phone, simply send a location request text from your internet enabled phone. A return text containing a hyperlink to Google mapping will quickly enable you to view the location of the phone. Unlocked to any mobile network, no subscription or monthly charges, and there is a free to use tracking website where you can view journey history.

**EM503B TRACKER MOBILE PHONE PRICE £99.95 + VAT (£119.95)**

<http://www.easylinkuk.co.uk/page50.html>

**IHELP PERSONAL TRACKER WITH FALL SENSOR AND MEDICATION REMINDERS**

iHelp is a revolutionary new product that provides confidence for the user and peace of mind for family members and carers.

iHelp personal tracker gives precise location details, when requested, by authorised service users.

iHelp fall sensor can be turned on/off remotely via the free config APP. A location text with hyperlink to Google maps is sent to authorised users to enable quick location of the device.

iHelp can receive and make telephone calls at the press of a single button.

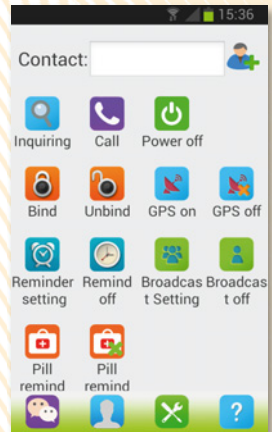

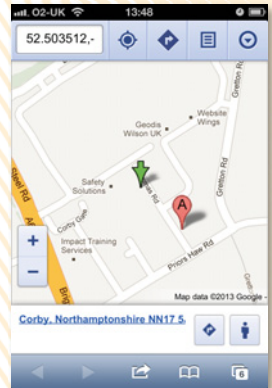

- OPERATING FREQUENCY BAND 850/1800 MHZ 900/1900 MHZ
- BATTERY RECHARGE TIME 2-3 HOURS
- STANDBY TIME (MANUAL TRACKING) 120 HOURS
- OVERALL WEIGHT 69g
- DIMENSIONS 73 x 53 x 18mm
- TALKING LOW BATTERY WARNING
- TALKING SOS ACTIVATED
- TALKING FALL ALERT ACTIVATED
- TALKING MEDICATION ALERT
- DAILY ALARMS TRANSFERRED VIA APP
- GSM NETWORK UNLOCKED TO ANY NETWORK
- ONE-TOUCH EMERGENCY PHONE CALL
- MANUAL OR AUTOMATIC TRACKING
- TRACKING ACCURACY 15 METRES
- USE WITH LANYARD OR BELT CLIP

iHelp is supplied with 1400mAh rechargeable battery, plug in charger, instruction manual. Requires mobile network SIM card (Not supplied).

**GSM HOME GUARD SYSTEM FOR THE VULNERABLE AT HOME**

The AD-04MP Home Guard system from Medpage features the latest technology to safeguard a vulnerable person at home. The AD-04MP is a GSM auto dialler incorporating a programmable radio receiver that receives signals from a variety of sensors including: PIR, door/window alarm, personal help call buttons, bed occupancy alarms, water overflow alarms, smoke alarm, carbon monoxide alarm, and most Medpage/Easylink radio based care products.

The AD-04MP also detects lack of activity in a persons home and will send text reports if a person is not detected moving around the house in a selectable time period, or if the fridge is not opened, kettle switched on, or rise from bed.

All setup is completed via a free mobile phone APP. All alerts are notified to family/friends/carers via SMS text message. There are 2 x outputs controllable by SMS that can be used to trigger connected devices.

The AD-04MP has a listen-in function that is activated by making a call to the dialler SIM card.

Transmitter sensors can be set to activate an emergency dial during selectable time periods only.

The AD-04MP is powered by mains power adaptor and has full system battery backup. SIM card network continuity is monitored and restored automatically by monthly SMS text message. Low PAYG call credit is notified via SMS text message.

Details and prices for all sensors shown opposite are featured in this brochure.

GSM Home Guard emergency Dialler

## VIDEO/AUDIO WIRELESS MONITORING CAMERA SYSTEM

The Watch & Care V130 wireless video monitoring system uses 2.4GHz transmission, which means the connection between the parent/carer video monitor and the camera is safer and longer in range, transmitting through indoor walls and ceilings. This system is an ideal solution not only to monitor babies/children but also to monitor patients in their rooms, monitoring exit doors etc. It is simple to use yet packed with many useful features including:

Two way communication between the two units. High quality colour display with menu that provides control over the camera unit including; activation of night vision function, brightness / volume control, viewing of the temperature in the monitored room. Camera with day and night vision selection. Power saving function.

### MONITOR FUNCTIONS

2.4" colour LCD display. Monitor unit with vibration alert and adjustable sound levels. Volume control. Two-way intercom function. Brightness control Remotely switch camera night light on/off from monitor. Belt clip. 2.4 GHz- Digital transmission through walls, floors and ceilings. 36 channels.

### CAMERA FUNCTIONS

4 infrared diodes for night vision function. Voice operated (VOX) option to turn on video monitor when sounds detected by camera. Secured transmission – less prone to interference or signal interception by similar systems. Camera unit with built in night light. Transmission range up to 150 meters in optimal conditions. Mains or battery power operation.

### TECHNICAL DETAILS

- MEASUREMENTS (WIDTH X DEPTH X HEIGHT):
- MONITOR UNIT: 70 X 30 X 120 MM
- CAMERA UNIT: 90 X 75 X 120 MM
- CHARGER: 95 X 78 X 45 MM
- WEIGHT: MONITOR UNIT: 133 G
- CAMERA UNIT: 147 G (WITHOUT RECHARGEABLE BATTERIES / CHARGER)
