

BVS PRO W Wireless Bladder Scanner

Announcement

Win Health Medical announces distribution of the BVS PRO W Bladder Scanner

We proudly announce that the innovative bladder volume scanner, the BVS PRO W is now available in the UK exclusively from Win Health Medical, the UK importer and distributor of the BVS PRO W.

BVS PRO W is a 'new generation' handheld real-time bladder scanner. Technologically advanced and easy to use with only one button, the wireless BVS PRO W automatically identifies male, female or child anatomy. The scanner produces sharp clear images, delivering accurate measurements on its colour touch screen in seconds.

BVS PRO W Bladder Scanner combines lightweight compact design with advanced features, resulting in a unique device that is fast, accurate, rechargeable, operator friendly and uniquely mobile 'go-to-scan-anywhere' perfect portable bladder scanner.

BVS-Pro W Bladder Scanner performs well in busy hospitals, allowing operators to move quickly from outpatient clinics to scan patients on the wards. In community settings, scanning at different clinics, health centres, walk-in therapy clinics and in care homes is now possible as is taking bladder volume measurements conveniently in patients' own homes.

Affordable, cost-effective and with 4-years generous warranty, the BVS PRO W Bladder Scanner represents great value to the NHS, private healthcare providers, care home managers and owners and others who require reliable and easy to use mobile bladder volume scanner.

BVS PRO W can be purchased from the NHS Supply Chain and directly from Win Health Medical. All enquiries are welcome!
