# VPL250

VPL250 is available with several travel distances:

- 200mm to 1.100 mm
- 1101mm to 1.600 mm
- 1601mm to 2.100 mm
- 2101mm to 2600 mm
- 2601mm to 2990 mm

The VPL250 platform lift ensures **ACCESSIBILITY** to:

- Private premises (banks, restaurants, shops, offices)
- Public buildings (schools, institutes)
- Homes and residential buildings

## Easy, Safe

Easy installation and safety when in use make the VPL250 an ideal system for freedom of access to buildings of all types, assuring wheelchair users independent personal mobility.

VPL250 Platform lift adapts perfectly to all functional and aesthetic needs

VPL250 requires a minimal pit, meaning installation is really tailored to the existing structures.

## Excellent Construction

VPL250's outstanding features include a stainless steel structure, design with attention to every detail and state-of-the-art active and passive safety features, as well of course as the proven Premier mechanical drive systems.

The on-board and floor control panels are equipped with keys and can be used easily.

## Standard equipment

- Door, guards and gate posts in painted steel (RAL 7040)
- Polycarbonate guards
- Hold-to-run controls both on the lift and at the floors
- Emergency stop on lift
- Controls at floor and on lift with removable key
- 24 VDC auxiliary circuit
- Electromechanical locks with removable contact; Electric locks with EN certification
- Automatic over-speed safety valve
- Manual descent function for use in the event of blackout
- Door/gate can be opened from exterior with key
- Anti-crushing edge guard
- Safety edge-under platform proximity sensors
- On board manual gate (version 1600, 2100, 2600 and 2990)

## Options

- Automatic doors and gates
- Remote control post
- Radio controls
- Motorized gate and 90° exit
- AISI 316 Stainless steel finish

### Guaranteed product

The VPL250 elevator is guaranteed until to 12 months from the date of consignment

### PSP: at partners' service

Partner Support Program: a Manufacturer exclusive for its partners, aiming to supply each of them, all over the world, with a series of personalised tools for developing their business and offering the end user a better and better service. This programme includes an introduction to the concepts of "accessibility", specific classroom training courses and training in the field for sales staff and engineers, analysis and assistance for the development of the most appropriate market strategies, and backup for the organisation of seminars (e.g. for architects, civil engineering firms, etc.) and for participation at trade fairs. Close co-operation with its partners guarantees us constant improvement of its degree of knowledge of the various markets and thus of their varying needs in terms of accessibility, which translates into the design of suitable products. All oriented towards better management of customer relations, and the achievement of full customer satisfaction.

### Premier Range

A wide range of products dedicated to people: home lifts and elevators, chairlifts and stair-lifts, platform lifts and mobile stair climbers.
