

Q-build[®] demountable staging

Offering Early Years Staging & Play

At Stage Systems we recognise that performing on stage in early years education helps improve physical development; expressive arts; communication; language and personal development, fully supporting the EYFS Framework.

We also acknowledge how valuable your nursery space is. Our staging is simple, strong and flexible, easy to set up and requires no tools, making it ideal within a range of environments. Our popular tried and tested demountable staging offers a range of accessories and finishes. Achieve versatile layouts from the same frames and decks and store the system neatly away when not in use.

A compact multi-level performance environment where pre-school and nursery age children can truly express themselves through role play or stand proud for their graduations and achievements.

We bring the fun to staging

Performing on stage in early years education helps improve physical development; expressive arts; communication; language and personal development, fully supporting the EYFS Framework

Choose your backdrop
