PINPOINT®

LIFE EXTENDED

Don't miss out on our 2020 introductory prices for all extended warranties - available for a short period only!

We continue to use the highest performing technologies to provide leading edge safety solutions that deliver ultimate reliability in the most critical situations.

Not only do we ensure that all our products are manufactured to the highest-level quality as well as adhere to strict industry standards, they also come with an additional 1-year warranty for added peace of mind (5-year warranty for Perpetual PITs).

Whilst we are exceptionally confident in the quality of our products, we also understand the harsh environments in which they operate. Durability in our products is crucial however, due to the nature of their use they often suffer accidental damage.

For example, in the last 12 months, 20% of our PIT products have been returned to us due to accidental water damage. These are all covered under our NEW extended warranty programme.
