

TM Electronics (UK) Limited

# Food Temperature Range

## Thermometers and Probes from TM Electronics (TME)

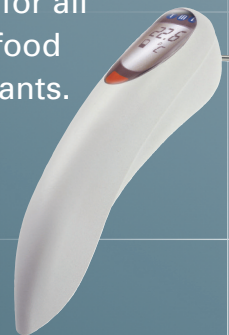

TM Electronics is a leading UK manufacturer of high accuracy thermometers and probes, supplying the food and hospitality industries for more than 20 years.

From production and distribution to storage, retail and consumption, routine use of quality thermometers and probes accurate to +/- 0.5°C is essential to comply with food safety legislation.

TME offers practical and affordable equipment for all applications - in farming, food manufacturing, food service and catering, supermarkets and restaurants.

For improved speed and strength, TME now offer probes and thermometers with ThermaSprint technology, producing a rapid 3 second response time – up to 10 times faster than conventional probes.

## When temperature matters, choose TME and see the benefits

- Quality you can afford
- Accurate for HACCP Food Safety regulations
- Accurate for HACCP
- Hygienic waterproof equipment
- Quick and easy operation
- FREE expert advice
- No minimum order requirement
- Next-day delivery
- Low-cost servicing, calibration and repairs

We supply off-the-shelf equipment or bespoke designs to suit all budgets, with volume discounts as standard. Don't put it off any longer – get a FREE quote today.
