

Available with a choice of standard banner materials:

Reinforced light block PVC, totally opaque for perfect double-sided print, long outdoor life and vibrant colour reproduction. The 'easy wipe clean' surface makes it ideal for front-of-house food and drink environments.

Provides a semi-transparent finish and allows some air to pass through, making it ideal for windy locations, 'subtle branding' and creating a 'style-bar' look. Full colour print is available on one side with white or single colour on reverse.

For a traditional satin canvas look. This synthetic material provides a high quality print surface, allowing a fully printed design on one side with white or single colour on the reverse. Unlike cotton-based canvasses, it will not stain, fray or rot.

All our banners are:

Suitable for indoor and outdoor use

Available printed, made to order

Simple to setup and use – roll-up banner around cross rails for storage

Standard Options – Bright polished stainless steel finish
