

# SNAPFRAMES

*We have probably the biggest range and stock in Europe at competitive prices combined with top quality and service. And because we manufacture, we can accommodate a wide variety of non-standard sizes and colours in quantities from one!*

## All our snapframes feature:

- Quick and easy poster change
- 'Security by intelligence' – when closed, all fixings and opening method are hidden from view
- Silver anodised finish as standard (unless otherwise stated)
- Anti-glare poster cover sheets
- Pre-drilled and individually boxed with screws and wall plugs
- White or grey plastic back panels depending on size/style
- Suitable for indoor or outdoor use

For added security, see our **Security** and **Lockable** Snapframes on pages 28 and 29.

★ All our snapframes are made using fully recyclable aluminium with fluted polypropylene back panels and PVC or PET poster cover sheets. Mechanical fixings have been used throughout for easy 'end of life' breakdown

## BESPOKE SNAPFRAME SERVICE

We can supply snapframes in almost any size and in any RAL colour, using a wide range of profiles – the following pages show just some of the options available to you.

Custom sizes and colours are available in quantities from one through our bespoke service in 15mm, 25mm, 37mm and 38mm standard profiles and 25mm and 38mm security profiles. Wood grain finish is available on 25mm and 37mm profiles.

To view our range of **illuminated snapframes**, see pages 72-75 (Lightboxes & Illuminated Displays).
