TOP-OPENING POSTER POCKET

Patent Application No. GB0820046.1

All Swingers for posters now feature our new top-opening poster pockets.

- Greater ease of access to posters
- Significantly reduced risk of poster loss
- Self-closing magnetic poster pocket
- Improved hygiene – opening is now much higher from ground level
- Fitted as standard on Swinger 2000, 3000 and 4000 poster options

During trials, customers have unanimously voted in favour of the top-opening poster pocket versus the previous (and competitors') bottom-opening design.
