

The Granite Exclusive Tee Sign

The Granite Twin Posted Tee sign was created by Ken White Signs in 2005, as a stylish and exclusive product. With its Hardwood or Stainless Steel post mounting, alongside the durability and finish of Real Granite, it has become a popular choice.

The graphics and detail are engraved in to the surface, adding increased durability and finesse to this stylish product.

25mm thick granite with all text/graphics sandblasted and enamel painted to suit

Panels bolted to timber structure

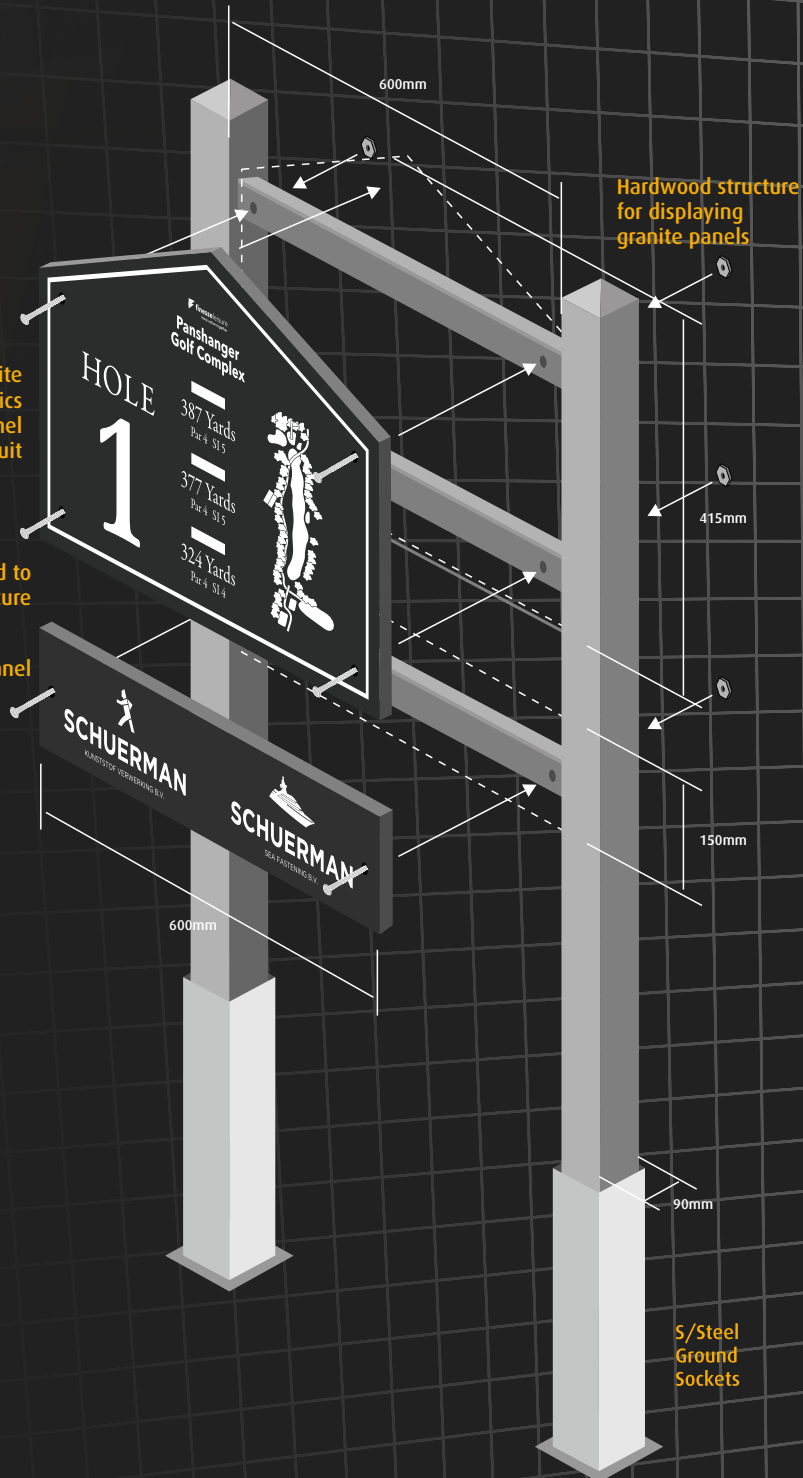

Granite sponsor panel

Hardwood structure for displaying granite panels
