freestanding window graphics exhibition displays unique signage solutions

Sign solutions
which have
inspired
generations

A family run sign making business,
based in Mid Devon, established
since 1967.

Offering the widest and most
exclusive range of sign services
available anywhere in the UK, Ken
White Signs are no ordinary sign
company.

Working with public or private
organisations, multi-national
companies or self employed
businesses, our creative team will
ensure your individual requirements
for all your signage, are completed to
the very highest standards.

together on the right path

It is our aim to exceed
your expectations every time.

Modern free standing

Working with stainless steel, aluminium, timber, acrylic, stone and much more, Ken White Signs are perfectly qualified to fulfil any modern free standing requirement.

Single or double-sided, flat, curved, triangular, or if you want something completely bespoke, we are happy to work even more closely, in order to achieve exactly what you are looking for.

"I have used Ken White signs for a number of years and I have always found them to be extremely accommodating. The work they produce is to a very high standard and is always ready on time. I always recommend them."

NSPCC – Donna Stratham

Traditional free standing

Ken White Signs boasts a production facility capable of stretching limitations.

Supplying traditional/interpretative sign solutions to top golf courses throughout Europe.

Followed by many years working in the leisure industry with national parks and tourist attractions alike.

"DJT (Donald Trump) loved the signs!"

Trump International - John Bambury

Architectural & way finding

Our portfolio of architectural and way finding schemes, incorporates both modular and bespoke sign solutions.

Ken White Signs have been implementing architectural and way finding solutions for organisations since the early 70's.

Working with; stainless steel, aluminium, timber, stone and much more, Ken White Signs can fulfil any specification.

"We have used Ken White Signs for over fifteen years and they have always provided a fast, efficient and professional service."

Blundell's School - Peter Klinkenberg

artists impressions

"Rainbow Home, Garden, Leisure would like to thank Ken White Signs for their professionalism when dealing with our company re-branding. From initial logo creation to the stunning livery on our company vehicles Ken White Signs have been helpful, hard-working and above all a reliable business partner who we wish further success in the future."

Rainbow – Judith

"The service that they provide us with is very professional and all of the work is finished with great detail. Nothing that we ask Ken White Signs to provide us with is ever too much trouble."

Phil Saunders Building Contractors

"Ben and Chris at Ken White Signs have always delivered on time, on budget and are good to work with. I would recommend the company to anyone with van livery, label or sign design and installation requirements."

Traffic Survey Partners - Phil Spencer

"Fantastic signwriting, fast and efficient service, highly recommended!"

Dolphin Lifts South West – Natalie

Vehicle livery

Ken White Signs can design, print and apply vinyl graphics for almost any vehicle. Cars, vans, lorries, buses, boats, motorbikes; the list goes on.

Vehicle decals and graphics provide an efficient advertising solution for any vehicle.

Whether a full vehicle wrap or part coverage, consult our design team to achieve something individual.

With over 40 years experience; Ken White Signs are well placed to support any project, large or small.

Fascias & windows

One of the most commonly viewed forms of signage is the fascia sign. On a shop front, office entrance or on the front of a retail park development, it conveys a brand and image vital to the occupier.

Window graphics provide decoration, privacy, security and can also be an important health and safety consideration.

"We thank Ken White Signs for a prompt and professional approach to all our needs."

Green Resource Engineering Ltd - Tony Britton

Individual relief cut graphics

From hand crafted built up 3D letters, through to flat cut letters produced on the latest laser, plasma and router cutting technology, we can provide a full range of products in a huge variety of materials and finishes.

Enhance any of your sign solutions by adding this extra dimension. Our graphics can be illuminated using energy efficient LED's or other more traditional methods.

"Fast, efficient, friendly service. Nothing is ever too much trouble."

Supacat - Gillian Whitfield

Exhibition & banner

We offer customers a comprehensive service for every aspect of exhibition and temporary display signage.

From pop-up display systems with easy to assemble frames and striking graphics panels, to the supply of a modular exhibition stand to cater for larger events. Portable exhibition stands are also available for front of house displays or smaller exhibition displays.

A full range of health & safety signs are available

"Competitive, prompt, quality and reliable, that's why I keep using you!"

Unique sign solutions

Ken White Signs boasts an unrivalled array of experience and product knowledge, enabling us to move boundaries and take your ideas to new levels.

Working with timber, stainless steel, aluminium, stone, cast bronze, zinc, acrylic, vitreous enamel and more, we can provide sign solutions with a creative edge to meet any requirements.

Consult with our creative department at a different level and inspire something extraordinary.

deep etched zinc plate

Creativity

Our creative team are all fully trained to an advanced level in design packages such as Photoshop, Illustrator, Corel Draw and other leading programs.

One of the company's biggest assets is its ability to design sign products with a toolbox full of such a wide variety of materials and finishes. From timber, stainless steel, granite, glass, recycled plastics, etched zinc, to full colour print and more. Working in a production facility without limits is a creative designers dream.

This photo provided courtesy of Imagemakers, shows off many of our techniques; etched zinc, full colour printed graphics, stainless steel manufacture and sandblasting in sandstone
