

MHM3000 STATIC COMPACTOR

The MHM3000 Static Compactor is ideal for large volume & bulky waste materials.

Implementing a high compaction ratio system not only reduces fire risk and vermin threat but also ensures total waste containment, minimizes odours, cuts down collection costs, prevents windblown trash, deters unauthorized access, enhances on-site hygiene, and offers ease of use with automated pinning off, all backed by a full 12-month on-site parts and labour warranty.
