

Barrierslide Strap

Barrierslide Strap is a high quality traditional Barn Door style internal sliding door system finished in either a black powdercoat or made from 304 satin stainless steel. This kit is supplied as standard with both Softopen and Softclose pre mounted onto the track. These will work with a door up to 80kg. Should the door be between 80kg-150kg then remove the softclose units. The track is supplied in a 2m length which allows a door size range between 762mm - 1000mm.
