ACCESS CONTROL

Kelio

Bodet Software design and produce access control hardware and software. With over 30 years' experience, we can help you manage access for you and your staff.

Our expertise means we can offer user-friendly and intuitive solutions, adapted to the needs of businesses and organisations of all sizes and in all sectors.

Our innovative, cutting-edge Kelio solution continues to evolve, to adapt to organisational changes and meet new access control challenges.

Kelio provides an entirely customisable portal, which only displays the features available to the user profile: employee, manager or administrator.

INTEGRATED ACCESS CONTROL

Secure employee access

With Kelio, you can easily control access to your buildings. Our comprehensive solution offers the following benefits:

- LIMIT ACCESS ACCORDING TO USER PROFILE
- CHOOSE THE RIGHT ACCESS READER (BADGE, CODE, BIOMETRIC OR NUMBER PLATE READER)
- OPEN A REMOTE ACCESS POINT WITH YOUR SMARTPHONE

Supervise access to your buildings

With Kelio, you can analyse and understand everything that's happening on your premises. From automatic reports to real-time monitoring, you can manage access control events simply and securely.

- SUPERVISE YOUR BUILDING IN 2D/3D GRAPHICS
- RECEIVE NOTIFICATIONS OF ON-SITE ANOMALIES
- COUNT THE NUMBER OF PEOPLE PER ZONE
- ARCHIVE ACCESS EVENTS

THE ART OF RECEPTION

Modernise your reception

With a Kelio Visio X7 terminal, your reception area gets a modern makeover, in line with the digital standards of today's world. The touchscreen terminal can be used completely autonomously so that visitors can either check in independently or under the supervision of a receptionist, whose job is made easier.

- **DIGITALISE YOUR PROCESSES IN LINE WITH GDPR**
- **CUSTOMISE THE TOUCHSCREEN TERMINAL WITH YOUR CORPORATE GRAPHIC IDENTITY**
- **INVOLVE YOUR STAFF IN VISITOR MANAGEMENT**
- **PREPARE, MONITOR AND ANALYSE YOUR VISITS**

Adapt your process

Many different types of visitors come to your site (for example delivery drivers, technical service providers, salespeople, partners, cleaning companies). The Kelio solution allows you to adapt your reception process according to the type of visitor. You can define the steps required to manage each visitor type in terms of visit preparation, reception and monitoring.

- SEND A MEETING CONFIRMATION BEFORE THE VISIT VIA A QR CODE
- DEFINE A VISIT FORM FOR EACH VISITOR
- PRINT A BADGE WITH OR WITHOUT ACCESS RIGHTS
- INFORM THE HOST OF THEIR VISITOR'S ARRIVAL

Ensure adherence to protocol

Each organisation has its own security rules and health restrictions. Your visitors must be able to understand your protocol. Kelio supports you by letting you display safety instructions and a questionnaire to check that your visitors are adhering to your conditions.

- DISPLAY YOUR SAFETY INSTRUCTIONS
- TAKE PHOTOS OF THE VISITOR OR A DOCUMENT
- GET THEM TO SIGN DIRECTLY ON THE TERMINAL
- BLOCK ACCESS DEPENDING ON QUESTIONNAIRE ANSWERS
- COUNT VISITORS WHEN THERE IS A FIRE DRILL

Manage your fire drills

When there is a fire alert or drill, people on-site can register their presence by scanning their badge at readers positioned at assembly points. Using Kelo on their smartphone, managers can consult the list of people to be accounted for, monitor their scanning in real time and account for them via the application.

- EFFICIENTLY ACCOUNT FOR ALL PEOPLE PRESENT
- MANAGE SEVERAL ASSEMBLY POINTS
- COUNT STAFF AND VISITORS

Thanks to Kelio, I can carry out fire evacuations calmly and in total safety. It's very practical to be able to track the roll call of staff in real time.

EVA M. Security Manager

Analyse your statistics

At the end of a drill, a report can be produced to enable monitoring and improvement of evacuations. Kelio will help you update your security register.

- COUNT THE NUMBER OF PEOPLE ACCOUNTED FOR AND NOT ACCOUNTED FOR
- VIEW THE DURATION OF THE ROLL CALL PERIOD
- COMPARE YOUR PERFORMANCE AGAINST A PREVIOUS DRILL

Now, with these terminals, we are no longer disturbed in the middle of a meeting by colleagues looking for a free room.

PETER L. Manager

Manage meeting rooms

Equip your rooms with touchscreen terminals, to display availability and allow booking at the door. Kelio is fully synchronised with Microsoft® Exchange to optimise occupancy.

- DISPLAY THE BOOKING STATUS OF YOUR MEETING ROOMS
- BOOK DIRECTLY ON THE TERMINAL
- END THE MEETING BY SIMPLY SCANNING A BADGE AT THE READER

Secure access

As well as displaying the booking status of meeting rooms, Kelio Room Reservation lets you control their access.

- AUTHORISE ACCESS TO THE ORGANISER AND PARTICIPANTS ONLY
- SECURE YOUR PROPERTY AND SENSITIVE EQUIPMENT
- TRACK BOOKINGS IN THE EVENT OF AN INCIDENT
