

FerWood®

Brilliant solutions for wood.

Ferwood is an international Group that selects, reconditions and sells the best second-hand woodworking machinery all over the world.

The Ferwood Group obtains **85%** of its turnover from exports to EU countries and areas that are leaders in the field of woodworking: the U.S., U.K, Russia, China, South America, India, Turkey and the Middle East.

Besides seeking, reconditioning and selling the best second-hand woodworking machines and accessories, the Ferwood Group **owns over 600 machines**, stored in large warehouses distributed over the national and international territories, and immediately available to offer customers an all-round service on the entire range.

Italian heart, global market.

Ferwood was born in **Pollenzo**, in the heart of the Langhe, from a decades long experience in the field of woodworking machinery, accessories and carpentry.

In **1980** Luigi Rossi sold the first woodworking machine and from that moment his business grew until it became Ferwood, the **Group** that is today recognised all over the world for the quality of its products.

1 Group Strength

22 Worldwide Partnerships

7 International offices

80 Worldwide Employees

The world leader brand, for second-hand refurbished machines.

Only the machines of the **best brands** are certified Ferwood Approved: Homag Group, IMA Group, Biesse Group, SCM Group and many others.

Each customer can find a machine perfectly refurbished to meet their needs, **machinery** available in stock, and an efficient network all over the world.

The 10 steps that make a machine "Approved".

A process consisting of 10 steps, encompassing the entire production and supply sequence, from design to installation and control, up to the upgrade & functional testing steps.

- 1** All the components are dismantled and the machine is thoroughly **cleaned**.
- 2** The entire machine is **painted** and restored to as-new condition.
- 3** The main parts subject to wear are **replaced**.
- 4** Extensive **control** of all mechanical, electrical, electronic and pneumatic components. Any components found defective are repaired or **replaced**.
- 5** Safety devices are **tested** and upgraded.
- 6** Software programming and technical changes as per the customer **requirements**.
- 7** Machine **preparation** and set-up, producing the samples requested by the customer.
- 8** Acceptance and functional **inspection** by the customer at Ferwood's plant.
- 9** The machine is **delivered** to the customer, complete with use & maintenance manuals, copy of the software and the tools necessary.
- 10** **Installation**, testing, training and supervision of the customer's production process.

Brilliant solutions
for wood.

More than a single **brand**.

The other Ferwood's products

In addition to Approved, Ferwood boasts **3 other brands** that support the customer by providing an all-round service: **from the purchase of machine to its revision, to the technical assistance.**

Ferwood **Functional** ensures full control over machine operation, with a full warranty up to the installation stage. Ferwood Functional has been conceived for customers who want cost-effective solutions and prompt deliveries, but are not willing to sacrifice quality.

Ferwood As it is: the simplest and quickest method to buy woodworking machinery. The As it is brand is the ideal choice for customers wishing to save time and money. Machines owned by Ferwood are immediately available from the warehouse in a wide range of types to meet any need.

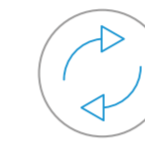

Ferwood Network is the Group's network of contacts that enables sellers and buyers to get in touch with one another in full safety. Besides a large, in-depth distribution network, the service offers quality information on the machines listed, certified consultants and technical know-how.

Ferwood Service. **360° Assistance.**

Besides selling the best woodworking machines, the Ferwood Group supplies a **technical support service** not connected with product sales.

Ferwood Service products can be offered separately, not as part of a Ferwood brand package, to customers who are not buying a machine.

This is **Ferwood Service**, an **organised consultancy** service that follows the customer through each purchasing step and beyond.

Overhaul

Training

Installation/Testing

After-sales service

More than **600** machines available in our stocks all over the world and a **Showroom** of products already refurbished for immediate sale.
