Neyland, Pembrokeshire, SA73 1SE

Communic8 release new range of Data only SIM Cards.

With an increase in PTToc radios (Push to Talk over Cellular) or in simple terms, two way radios using phone networks. We have a brand new range of Data Only Sim cards available to rent on short term contracts with flexible plans to suit all budgets.

## What do the new sims bring and why are they special?

We have worked extremely hard to bring the best sim cards to all our products. The fundamental key item of our sim cards is the fact they are Multi Network. This gives your two way radio, barcode scanner, work tablet or iPad the best connectivity options. You will be able to use EE, 3, O2, Vodafone connections all from one sim card in 1 device.

## Who would benefit from the Data Only – Multi Network Roaming Sim Card?

Anyone and everyone. Whether you are an event organiser and you use barcode scanners to scan entry tickets at an exhibition or you have a fleet of tablets that your staff use out and about every day. The sims are perfect!. Of course, not to mention ideal for 4G LTE 2 Way Radios.

## Tell me more about your sim cards and how they work?

We utilise a UK-based, resilient MVNO mobile core network, with global connectivity to over 450 networks and local connectivity with all four UK mobile networks. UK-based interconnects and breakout ensure the traffic stays in the UK. You get to use 3G/4G Connectivity when using these SIMs

Whether you are looking to use Push To Talk Over Cellular two way radios or you have an IoT opportunity. We have SIMs from 10mb to 499GB available.

The flexibility this popular SIM gives you means you can also use your Two Way radios for example, in many of the EU countries with the EU data roaming. These include places like Belgium, Denmark, France, Germany, Spain and many more.

Data Only Sim cards plans are available from as little as 30 days making them ideal for exhibition use or short term deployments.

## Sim Card Prices

3G/4G Data Only Multi Network Sim Card Prices (12 Month Plan) – **To rent short term, get in touch.**

500mb Sim - £3.20
