# MISC PRODUCTS

## Shoes & Boots for Controlled Areas

Our extensive range of footwear is designed to combine comfort and hygiene in controlled environments. Manufactured from quality materials the most popular styles are shown in this section. Due to the continuous improvement policy, styles may vary so please contact us for current availability and designs. **Sizes 2-13 depending on shoe type.**

## Contamination Control Flooring

The CES range of tacky mats includes a wide choice of sizes and pack configurations. Due to their low profile construction no frames are required for use. The adhesive on the side of the mat that fixes to the floor is stronger than that between the peel of sheets. As a result, the placed mat will not lift from the floor when the contaminated layers are peeled off.

Each layer has a numbered corner tab so that accidental removal of clean layers is avoided. Unlike permanent alternatives no cleaning or special tools are required and the mats are an easy, efficient and cost effective means of removing harmful contamination prior to entry into critical areas.

CES are able to offer a range of long-life flooring.

**Critical Environment Solutions Ltd**

Part Number	Description	Size	Layers per Mat	Case Quantity
93183664W/B	Contamination Control Mats, White or Blue	18" x 36" / 46cm x 91cm	60	4

93363638W/B	Contamination Control Mats, White or Blue	36" x 36" / 91cm x 91cm	30	8
93264538W/B	Contamination Control Mats, White or Blue	26" x 45" / 66cm x 114cm	30	8
93364538W/B	Contamination Control Mats, White or Blue	36" x 45" / 91cm x 114cm	30	8

Alternative configurations, colours & sizes available  
Please contact customer services with details of your requirements.

# TACKY ROLLER

The CES range of Tacky rollers are designed to be an effective tool for the removal of particles from walls and ceilings in some cleanroom environments. The film or foam rollers feature multiple sheets of a sticky polyethylene adhesive film. Foam rollers are suited to uneven surfaces whilst film versions work best on smooth surfaces.

Critical Environment Solutions Ltd

Part Number	Description	Size	Layers per Roller	Case Quantity
PR9F	Tacky Roller FOAM Roller 40 Sheets	9" / 23cm	40	9
PR9FILM	Tacky Roller FILM Roller 180 Sheets	9" / 23cm	180	9
