For many years it has been recognised that conventional paper-based products are among the major sources of contamination in a cleanroom.

Our range of paper and notebooks has been designed to significantly reduce this risk.

Cleanroom Tapes

Applications requiring the use of "clean" tapes are ever increasing. The Micronova range of tapes continues to grow to meet the demands of various industry requirements. Many can be supplied irradiated for use in aseptic areas and there are cuff strips and cuff tape for the sealing of the critical wrist area to avoid any harmful exposure. Irradiation Indicators are also available.
