

# Stainless Steel Washroom Products

Style and value with no compromise

**Whether you're a specialist installer or a manufacturer of washroom cubicles, you'll appreciate the value of choice.**

Different projects call for different styles, materials and finishes, but where quality and aesthetics really matter, there's no better choice than stainless-steel. Robust and dependable, it minimises servicing costs, and it's readily available in a wide range of designs and finishes

# Washroom Products To Suit Every Purpose

The Dudley Industries washroom range gives you exceptional freedom of design. Whatever your project, we have products to suit every style and purpose, so you can plan your layouts without ever having to compromise.

The range includes traditional and contemporary designs; products that have proven their reliability in everything from heavily-trafficked public facilities to washrooms in some of the world's most prestigious restaurants and hotels.

*Timeless classics*

*Sleek, modern, engineered finishes*

*Minimalist, recessed and hidden options*

# PRODUCT OPTIONS

A host of products in matching styles, materials and finishes:

## Dispensers

soap, gel, towels, tissues and more

## Dryers

## Waste Bins

## Accessories

cabinets, mirrors, coat hooks and more

## Recessed Equipment

## 'Behind the Mirror' Ranges

## Specialist Solutions

As one of the world's leading washroom equipment manufacturers, we also offer ranges for new-build and refurbishment projects that present special design challenges. These include anti-ligature products for mental health facilities, and a 'dementia-friendly' range purposely designed for care homes, hospitals and day care facilities.

We also have our own in-house design facility, so we can accommodate special orders and requests.

# Product Guarantees

At Dudley Industries, we've built our name on dependability, but we know that a name alone isn't enough. That's why all our dispensers are supported by a 10-year warranty, and all items containing electronic parts come with 3 years of warranties and technical support

**10**  
D YEARS  
WARRANTY

**3**  
D YEARS  
WARRANTY

## Offering More Than Just Our Products

With decades of experience in the design and manufacture of washroom equipment, we know that you're interested in more than just a product range. We understand the importance you attach to issues such as availability and delivery, ease of installation and dependable post-installation support.

We also know the value of working as a trusted, long-term partner and, to earn that reputation, we're always ready to go the extra mile.

We'll provide you with utterly reliable products, of course, but our support goes much further than that.

## Adding Value

As designers and manufacturers, we know every last detail of our products, so you can count on us for:

- Support and advice on specifications and layouts
- No-nonsense technical advice
- Complete product data available on NBS Source
- Bespoke solutions for unique environments

## Cost Saving Know-How

Choosing the right products and designs can make a sizeable difference to a client's routine costs.

That's why we focus on delivering solutions that:

- Tolerate heavy use in busy washrooms
- Withstand knocks, scratches, corrosion and discoloration
- Are secure yet quick and easy to refill
- Are easy to clean

What's more, because we concentrate on making the dispensers rather than the consumables, our products don't tie you to a single supplier or to any restrictive contracts.

Our ranges are made to be compatible with all standard types of paper towels, soaps, sanitising gels and so on.

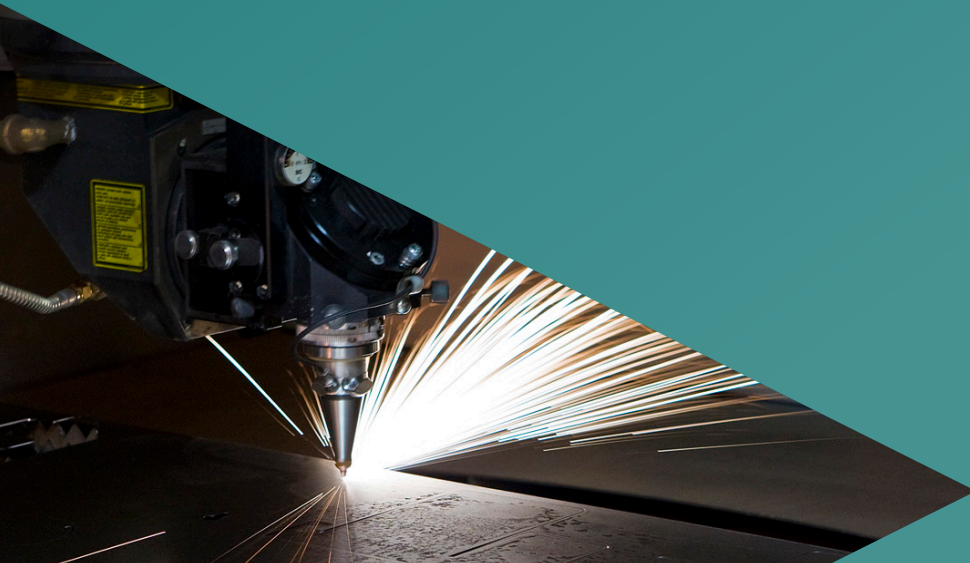

## Further Support And Solutions

We've built an extensive and versatile product portfolio, and our ongoing new product development programme means that we're always working on plans to extend it. However, if you're facing a particular challenge and you need something more bespoke, then please talk to our design team - because we can help with that too.

Every aspect of a product is potentially customisable, from size and shape to styling and operation. If you need it, we can even produce a complete new range, in your own corporate colours and branding.

When we build a partnership, we put one of Britain's most sophisticated manufacturing facilities at your disposal; how you use it is up to you.
