

CASE STUDY

WHITHEAD SPORTS & SOCIAL CLUB— NP10 8LA

SOVEREIGN
Bringing Imagination into Play

I was invited to Whitehead Sports & Social club first back in 2023 and asked to come up with a scheme to replace some old playground equipment there, in hope it would enhance the setting and help draw in more families to the facilities there and bring a real sense of community to the club. Invited back in 2024 to meet with new committee members who were successful in bidding for and winning a Lottery grant to enhance the area, a new scheme was produced to maximise the amount of equipment within the area, providing maximum play value within the budget. The project timings worked out incredibly well as we were able to install just before the summer holidays allowing the club to really maximise on their potential to bring families in to enjoy the facilities all over the summer of fun with the children.

» FEEDBACK

What were the reasons for starting your project?

"We recognised that there was a need to provide the community with safe, secure and inclusive play provision that would bring families and friends together."

How did you discover Sovereign and why did you choose us?

"Sovereign were identified early as one of the market leaders - not only were they excellent value, but we had that assurance on the quality of the installation and the expert advice we received from Julie was a key factor."

What was your experience of our design and installation process?

"The process was excellent - efficient, at pace and with minimal disruption and excellent communication throughout."

How has our equipment impacted or benefitted your school/organisation?

"The impact has been phenomenal - the feedback from visitors has been first class and we've attracted more visitors than ever."

What was your overall experience of having Sovereign fulfil your project?

"It has been an excellent project - the communication from the outset was superb and from the initial design and specification to the installation and post-project engagement, the whole experience of working with Sovereign has been first class."

» "It has been an excellent project - the communication from the outset was superb and from the initial design and specification to the installation and post-project engagement, the whole experience of working with Sovereign has been first class."
