

# CASE STUDY

WOODLAND WATERS HOLIDAY PARK — NG32 3RT

**SOVEREIGN**  
Bringing Imagination into Play

Sovereign were asked to visit and replace the old play equipment that the pub had on site, as the old play equipment behind the pub had been in situ for years. The new play equipment was installed by them, however is now located in front of the pub to better entice the public and families to visit, as it is open to both the public and paying guests.

## » FEEDBACK

**What were the reasons for starting your project?**

"We were looking to relocate our park and provide something entertaining and fun for the children while visiting our site or Bar."

**How did you discover Sovereign and why did you choose us?**

"We found you online while looking for new play equipment. We chose you over other companies because of the warranty you offer and the style of the swings (Round Posts)"

**What was your experience of our design and installation process?**

"The design side was very good to work with as we changed the 1st design to get within our budget and alter the orientation of different equipment to suit our area. The installation guys were very helpful and friendly a great asset to your company."

**How has our equipment impacted or benefitted your school/organisation?**

"It's still early days to see a financial benefit, but we've had so much great feedback from people using the park and also people who are looking forward to coming and staying with us."

**What was your overall experience of having Sovereign fulfil your project?**

"Very pleased with the overall experience from working with Sovereign Play."

» "The installation guys were very helpful and friendly a great asset to your company; we are very pleased with the overall experience from working with Sovereign Play."
