

Solutions Training & Advisory Ltd

Supporting Universities with Moving & Handling and Conflict Resolution Training since 1994

We partner with Universities Nationwide offering online theory and tutor led training to their paramedic science and health and social care students. We also provide train the trainer programmes to their teaching staff and lecturers, equipping them with the skills, techniques and knowledge to cascade the training to their students.

We offer qualifications which are on the regulated qualifications framework:

- QNUK Level 3 - Moving and Handling Trainers (Emergency Services)
- QNUK Level 3 - Moving and Handling Trainers (Health and Social Care)
- QNUK Level 2 - Moving and Handling People Safely
 - QNUK Level 2 Award in Conflict Management
- QNUK Level 2 - Preventing Violence in the Workplace
 - QNUK Level 3 - Delivery of Conflict Management Training

Training Delivery Options:

- Online theory courses bespoke to the sector (ambulance or health & social care)
- Blended learning – mix of online and tutor led training
 - Train the Trainer programmes – bespoke to each sector, and includes the QNUK trainers qualification

Why are we different?

We offer a consultative approach to our customers, we recognise that off the shelf generic training just doesn't suffice for these topics or their audience. Our solutions and delivery are tailored to suit you, your budget, your team and the real life challenges they face within their roles.

Our team

Our team of course designers and trainers are from high level positions within the emergency services. They have developed our programmes based on the challenges and experiences they have faced within their roles and their passion to improve personal safety and reduce risk.

Our Solutions

Train the Trainer

Our train the trainer programmes enable your trainers to compliantly and confidently redeliver training sessions to your staff. All trainers receive the provision of the QNUK Level 3 Trainers Award. On completion these programmes, trainers are given 12 months access to our unique training materials, including presentation materials, trainee workbooks (digital or hard copy), trainer handbooks and lesson plans.

E-learning

Solutions have designed online moving & handling and conflict resolution theory courses that are bespoke to the health & social care sector and the ambulance community. These courses are designed to educate learners on the required underpinning knowledge of the topic, allowing trainers to focus their time on teaching the practical elements of the subject.

Blending Learning

The blended learning strategy is adopted by many Universities, whereby the theory is learned online, followed by classroom training (by an internal trainer or a Solutions trainer) to teach the required practical skills of its topic.

Our track record of success

Universities we have successfully trained:

Robert Gordon University, Queen Margaret University, University of West Scotland, Glasgow Caledonian University, Birmingham City University, University of Stirling, Buckinghamshire New University, University of Central Lancashire, Edgehill University, Middlesex University, Imperial College University, Swansea University, University of West England, Southbank University, Teeside University

Testimonial from Claire Crawford Paramedic Science - University of Stirling

"Paul makes the learning very engaging for the students with the opportunity to use problem solving skills when using the equipment in a variety of simulated and real life settings. The online element of the training is interesting and interactive as pre course study. He brings teaching to life with real world examples throughout".
