

# CASE STUDY

## POTTEN END PLAYGROUND – HP4 3HZ

**SOVEREIGN**  
Bringing Imagination into Play

Our project to breathe new life into a popular village playground.

Sovereign attended site to discuss the possibilities of updating the village playground. We initially met with Andrew Farrow and on a later meeting, Hilary Smith, who Sovereign worked with up until Installation. We were asked if the existing slide could stay it could but the tower was replaced with a climber chosen from the brochure and a large play boat was added. The existing swings were updated with a new set as was the roundabout.

### >> FEEDBACK

**Why did you choose Sovereign for the Project?**

"We had the customary 3 quotes but felt Sovereign understood our requirements.

**What made Sovereign's design better than any others you received?**

"The Sovereign 3d image showed us exactly how the play area could look it was clear and concise

**How did you find the design process?**

"There were some changes/ add ons through the process to installation, but all were easily put in place.

**How did you find the installation process?**

"We are very fortunate to have good access to our playground. Sovereign created a fenced "pen" for their equipment and materials/machinery and all went well with the install.

>> "Our Village Playground needed refurbishment after 40 Years or so of faithful service, so we called the customary 3 companies for comparable designs, quotations and Ideas. Sovereign was not the cheapest we received but we felt their Area Manager Leigh was by far the most creative and responsive we met. I knew we could work with him and it turned out to be the best decision as we now have a beautiful new Playground, loved by children and parents alike that is the hub of village life..."
