

# CASE STUDY

RUSHBURY C OF E PRIMARY SCHOOL—SY6 7EB

**SOVEREIGN**  
Bringing Imagination into Play

» After

Working with the marvellous PTFA team at the school, Sovereign were able to establish a great play opportunity in what was a difficult area to realise. Sandwiched between a classroom, some trees the school wanted to keep and a fence, several play ideas were looked at to try to see what the school liked and what we could offer. As it was the trees that were part of an old Willow tunnel were able to be removed and the area was then large enough to offer a really good play value project.

Of a few ideas offered, the Brig was the one through more highly of by both the children and the school and the PTFA loved it. Using the area that was always bark, we added to this to thicken it and keep the identity of the surroundings which, along with the Brig, were all wood! All in all, a highly effective, creative and prized play area for years to come!

## » FEEDBACK

- What were the reasons for starting your project?  
"New playground equipment was required for our outdoor space"
- How did you discover Sovereign and why did you choose us?  
"Online research"
- What was your experience of our design and installation process?  
"Fantastic, great customer experience, great design proofs and options offered"
- How has our equipment impacted or benefitted your school/organisation?  
"Hugely! The entire school use it including the pre-school. The pirate ships encourages both active play and imaginative play"
- What was your overall experience of having Sovereign fulfil your project?  
"Absolutely brilliant and I will definitely partner with Sovereign again."

» "Sovereign are professional and personable. The equipment is of fantastic quality and during the planning process we were provided options and clear designs as it would appear. The children love their new pirate ship, it encourages both physical and imaginative play. We love it! Thank you Sovereign."
