

CASE STUDY

BARDWELL SCHOOL –OX26 4RZ

SOVEREIGN
Bringing Imagination into Play

Due to the school's new building, Bardwell School required a new outside/playground area for the children that catered for all inclusive use as well as children with other needs. Sovereign have created an environment where all children can play and socially interact with one another.

» FEEDBACK

Why did you choose Sovereign for the Project?

"This was part of a year-long procurement process managed by The Gallery Trust."

What made Sovereign's design better than any others you received?

"Designs from all companies were like for like."

How did you find the design & Installation process?

"Good communication with the design team to adjust and amend to suit the needs of the students and the school."

How has our equipment impacted or benefitted your school/organisation?

"The installation team were superb. They were extremely dedicated and committed to completing the work on time and with as little disruption as possible."

"The children are thoroughly enjoying the new outdoor space. It has been great to see them accessing all the different areas on the playground particularly the astroturf pitch and climbing frame. The playground looks superb, and the bespoke equipment has ensured that there is the right amount of challenge for a range of ages and needs."

The open spaces on the playground have also ensured that we have designated areas to run whole class lessons and come together as a whole school community. The installation team worked incredibly hard and didn't seem to stop! We were impressed with how quickly the playground installation was fitted. Thanks again!"
