

CASE STUDY

KINGSMOOR PRIMARY SCHOOL—TA7 8PY

SOVEREIGN
Bringing Imagination into Play

The school had recognized the need to revitalize their outdoor space, aiming to create a more engaging and enjoyable environment for the children. The existing area had become worn and uninspiring, so the decision was made to invest in a transformation. The refurbishment plan included new, vibrant wetpour surfacing to provide a safer and more visually appealing play area, along with the addition of a coloured polycarbonate roof pergola to provide shade and shelter, enhancing the outdoor experience for both learning and recreation.

» FEEDBACK

What were the reasons for starting your project?

"Our surfacing had become a health & safety issue and shelter was required"

How did you discover Sovereign and why did you choose us?

"We had previously completed projects at Kingsmoor"

What was your experience of our design and installation process?

"Good"

How has our equipment impacted or benefitted your school/organisation?

"It has created a safe sheltered area for EYFS children"

What was your overall experience of having Sovereign fulfil your project?

"Good"

» "We are extremely pleased with the shelter and flooring. The installers were extremely polite and accommodating as the work was being done during school hours. "
